VINYL SIDING

Royal siding products give you options. The option to mix looks, textures and colors you never thought of mixing before. The option to make your home reflect everything you want it to: architectural style, neighborhood vibe and personal love. Side and accessorize like your curb appeal depends on it.

You can do anything with Royal siding and accessory products. Anything. Update your front porch. Freshen up your gables. Make your home more impervious to weather's mood changes. Do it all at the same time.

Ever wonder what your home would look in another color or with new siding? Now you can explore new looks on your own home with HomePlay™ by Royal®. Choose from various home styles or upload a photo of your own home. Visualize how beautiful, low-maintenance products from Royal can enhance your home today!

ESTATE™ TRADITIONAL SIDING

The beautiful wood grain pattern captures the look and feel of natural wood while refusing to warp, buckle or sag in the face of the harshest weather. Protects from UV rays and provides amazing color retention.

WOODLAND™ TRADITIONAL SIDING

Brighten up your home's siding with the low-gloss cedar wood grain look and texture. Protects from UV rays and provides amazing color retention. A straight clean finish with superior strength and low-maintenance that won't warp, buckle or sag.

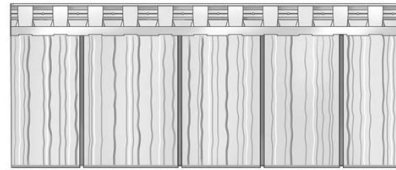

WOODLAND™ BOARD & BATTEN SIDING

Its lines may run up and down, but with looks this beautiful, there truly is only one upside, never a downside. Heavy gauge, cold-tested siding delivers a straight clean finish with superior strength. Innovative double-nail hem provides secure, tight fit.

ELECTRICAL MOUNTS

Easily install light fixtures and electrical outlets on homes or buildings. Ensure proper installation of light fixtures and electrical receptacles with built-in, code approved mounting block. Seal off wires from the elements with a pre-installed, airtight electrical box self-contained inside the mount.

STANDARD MOUNTS

Choose from a variety of mounts to add that finishing touch and provides a durable, water-resistant mounting surface for all exterior accessories - facets, house numbers, doorbell buttons and more. They easily handle the toughest weather conditions, never need painting or staining and their powerful UV protection will hold color over the years.

VENTS

Vents are an important function in every home and building - product yours with Royal utility and gable vents. Durable, weather-resistant designs are aesthetically pleasing. Simple to install, with a range of styles and colors to select from, they're the perfect choice for any project.

STEEL SIDING

EDCO steel siding withstands severe weather and holds color beautifully for the life of the product. With virtually maintenance-free products you'll never have to paint again - won't chip, peel or rust, guaranteed. Steel siding saves you money by deflecting heat in summer and retaining heat in winter.

EDCO steel products carry a lifetime, non-prorated limited warranty, with complete hail and fade protection. The warranty is also transferable should you ever decide to sell your home.

S6 STEEL SIDING

EDCO S6 steel siding features a traditional horizontal 6" profile in durable rigid steel panels creating a clean, crisp appearance.

D4 STEEL SIDING

EDCO D4 steel siding features a traditional horizontal 4" profile ensures flawless, tight seams and a straight clean appearance.

SOFFIT & FASCIA

EDCO soffit and fascia form a complete protection and beautification system, exceeding all building code requirements and save energy. The unique, backed-on coating process means colors last longer for a fresh finish. The unique center-vent and full-vent soffit lowers energy costs by providing maximum cooling for attic temperatures in summer and also controls ice dam buildup in winter.

EDCO offers an unbeatable 50-year, fully transferable warranty that guarantees fascia and soffit products will not crack, fade, chip or peel.

STONE VENEER

TriLite Stone is unique among manufactured stone veneer, as the dye is integrated throughout the stone. TriLite takes an extra step in the manufacturing process, coloring the stone all the way through. The result? Full color integration is longer lasting, better performing product. We utilize a minimum of seven different base colors ensuring color consistency, base and face.

Choose from 13 different styles of stone, plus brick and a wide variety of pre-mix blends, and of course, color complimented accessories. TriLite stands by the quality with a 50-Year Warranty.

TRILITE
STONE COMPANY
elegance · beauty · tradition

More styles & colors available

MOUNTAIN LEDGESTONE

The most rugged stone in the TriLite Stone line, Mountain Ledge Stone has the influence of the Rockies, Cascades and Appalachian Mountains. With an intricate profile, this stone will create a dramatic look for your application. It's a wonderfully textured mix of bold and sharp dimension, profile and depth.

PRAIRIE LEDGESTONE

A smoother, softer looking ledge stone, Prairie Ledge Stone suggests the longer, thinner dimensions found in the ledge stone and country ledge tradition, but also incorporates deeper pieces to enhance both profile and shadowing for an incredible finished look.

MINNESOTA LIMESTONE

Our Minnesota Limestone blend contains a variety of sizes but leans toward larger stone variations. It combines the regal, historical appeal of our Hackett selection with the more rough, textured features of Weatherface.

MORTARLESS STONE

Silvermine Stone Company's Stack-N-Tack® mortarless stone veneer siding is an attractive, cost effective alternative to real mortared stone. With the look and feel of real stone, durability, easy to install and maintenance-free. Stack-N-Tack is water-tight and can be installed in any weather. By eliminating the mortar process involved in traditional stone applications, labor costs are much lower. Anyone can install Stack-N-Tack stone siding by simply stacking it up and tacking it on.

Choose from a variety of products for your job. Flat stone are easily assembled with either nails or screws to create a beautiful and durable stone veneer surface. Corners are ideal for wall-to-wall transitions with a seamless result. Silvermine Stone Company stands by the quality with a 30-Year Warranty.

ALUMINUM RAILING

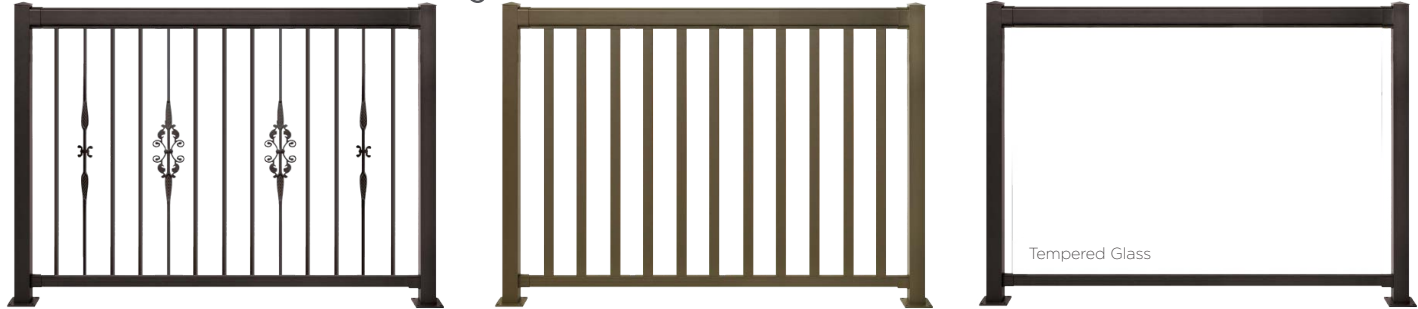

With the Regal System you have options to create your own personalized combination. Regal's patented locking system is the fastest and easiest to install; when your done, you have the comfort of knowing it's locked in place - safe and secure.

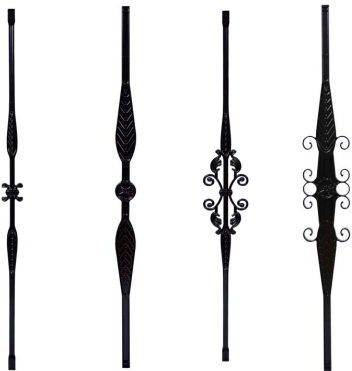

Regal Railing System offers various colors, decorative pickets, tempered glass panels and accessories - all of which are durable, powder coated aluminum finishes provides superior protection guaranteed not to rust or fade in all climates and backed by a 20-Year Limited Warranty. Enjoy the ambiance and safer nighttime lighting on your deck or entryway with Regal's Illuminated Railing System. Choose from three colors and brightness settings from a convenient built in remote.

DECORATIVE PICKETS

COLOR PALETTE

DECORATIVE ACCESSORIES

ALUMINUM RAILING

STEP 1 - INSTALL POSTS

Tack posts into place according to your deck plan - leave the lag screws loose so you can tip the posts and insert the top and bottom rails.

STEP 2 - INSTALL RAILS

Insert your top and bottom rails into the post brackets; plumb your posts and use self tapping screws to hold rails in place. Then go back and tighten all of the posts to the deck.

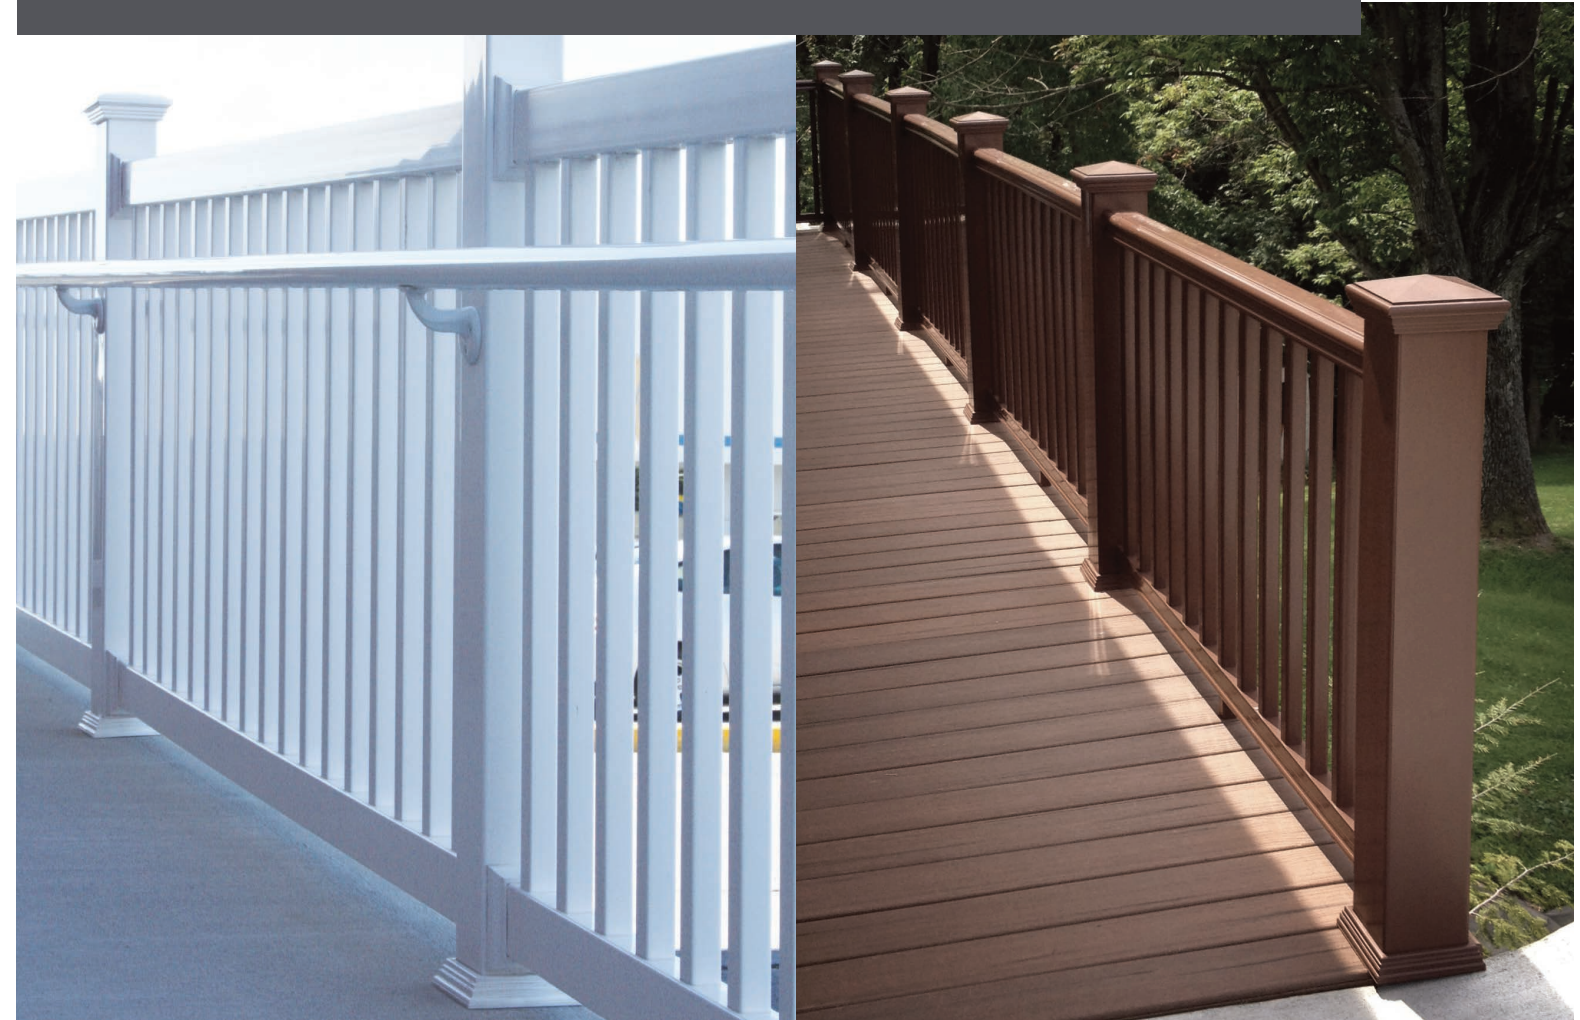

STEP 3 - SNAP IN PICKETS OR GLASS PANELS

Snap in pickets. Regal's patented lock in pickets provide a safe secure railing system that will look great and last for years. To install glass panels, install glass gaskets (GVIL) inserts into the top and bottom rails, then place two rubber blocks in bottom rail.

Regal ideas®

VINYL & COMPOSITE RAILING

Vinyl is an easily cleaned material that when supported by aluminum makes an excellent porch, deck or balcony guard railing. All Fairway™ Vinyl Railing Systems are covered by a Limited Lifetime Warranty and will not crack, peel, splinter or twist. Fairway™ has the experience, know-how and is dedicated to products that keep porch, deck and balconies safe and low maintenance. 100% Virgin Vinyl PVC compounded with high levels of Titanium Dioxide pigment to insure UV resistance and impact modifiers for long term durability and structural integrity.

Fairway Fx2 composite railing features hidden hardware for level, stair and angle rail applications. No twisting, rotting or splintering. Available in kits of 6' and 8' lengths. Installation is easy with standard tools and provided hardware.
