Countryside Finishes:

Countryside Cabinets offers two different methods of applying stains to our cabinetry. Our spray stains provide an even color across all surfaces that are non-grain raising and fade resistant. Our premium hand-wiped stains penetrate the surface to bring out the clarity and beauty of the grain. After these processes occur, there is a sealer and topcoat applied that utilizes the latest ultraviolet cured process. This process ensures a lasting protection to the wood surface which keeps our cabinetry looking beautiful for years to come.
