### HOURS OF OPERATION

Sales Office Hours: Mon-Fri 7:00am - 5:00pm  
Design Center Hours: Mon-Fri 7:00am - 5:00pm & Sat by Appointment

Website: <http://www.badgerlax.com> General Email: [badger@badgerlax.com](mailto:badger@badgerlax.com)

### STANDARD TERMS: 3/4% 10 Days, Net 30

**Prices and specifications are subject to change without notice.**

### CREDIT POLICY

#### STANDARD TERMS

A 3/4% discount will be allowed on invoices paid within 10 days of the invoice date.  
ACH is an accepted form of payment. Accounts with past due balances will be subject to a monthly service charge of 2% per month (24% per annum).

The net minimum service charge is \$10.00. No additional credit will be extended when an account has reached its credit limit or the account shows items which are 30 days beyond invoice date, whichever comes first. An NSF check will immediately put a customer on a cash basis.

A \$50.00 net service fee will be charged for any NSF check.

### MILLWORK NEXT DAY DELIVERY CUT OFF TIME

Badger Corrugating has a 3:30 cut off for all next day deliveries.

If you have emergency next day needs after the 3:30 cut off time please discuss with a Badger associate and every attempt will be made to meet your needs. This cut off time is to insure we have room for all product on designated routes.

### FREIGHT POLICY

There are no Delivery or Stop Charges on regular route deliveries, delivered to your yard.

A Flat Rate Charge of **\$15.00** per package will apply on all orders shipped via UPS/Speedy out of Badger Warehouse.

### ROUTE TRUCK, JOBSITE DELIVERY CHARGE

Residential and Commercial Jobsite Delivery Charge in our Delivery Area is **\$200.00**.

Jobsite Delivery Charge out of our Delivery Area is **\$200.00 plus Mileage (\$1.75 per mile, out of route area, round trip)**.

Jobsite Delivery Charge on a non-route day, is **\$200.00 plus Mileage (\$1.75 per mile, round trip)**.

Delay at Jobsite Charge (over 1/2 hour) is **\$75.00 per hour**.

**ROUTE TRUCK with PIGGY BACK FORKLIFT, JOBSITE DELIVERY CHARGE**

*(Add \$105.00 (to the prices below) for Commercial Job Site Delivery.)*

Jobsite Delivery Charge on a normal route day is **\$250.00 plus \$95.00 Jobsite Fee.**  
Jobsite Delivery Charge on a non-route day is **\$250.00 plus Mileage (\$1.75 per mile, round trip).**  
Delay at Jobsite Charge (over 1/2 hour) is **\$75.00 per hour.**

**Return Information**  
**Minimum Return Amount: \$25.00**

**RETURN POLICY**

All returns are subject to inspection. Returned goods will not be accepted after 180 days of the original invoice date, or if the product has been "Badger Discontinued" or "Factory Discontinued". All items must be returned in their original carton, and be in good salable condition.

**Special Order Products are Returnable Under the Following Conditions:**

1. Pre-approval of the return to our vendor must be obtained prior to material being brought into Badger's warehouse.
2. Return must be within 30 days of the original invoice date.
3. A 15% restock fee will be assessed from Badger along with any Vendor restock fees and, if applicable, return freight charges.
4. Items must be in their original cartons/packaging and be in good salable condition.

**\*\*\* We reserve the right to refuse the return on any item that is not a regular stock item with us.**

**Steel Panels:**

Steel Panels are not returnable, stock or SPO.

**Non-Millwork Items:**

If the item is in stock at Badger, there is no restock charge as long as the item is in good, salable condition, original package and not excluded above or below. Please note the minimum return amount above.

**LVL and I-Joists:**

14" & 16" LVL are not returnable. Cut pieces of 9-1/4", 9-1/2", 11-1/4" & 11-7/8" under 17' are non-returnable, over 17' will carry a 25% restocking charge. 9-1/4", 9-1/2", 11-1/4" & 11-7/8", stock length I-joists are returnable with a 25% restocking charge.

**\*Please note:** Badger Drivers **do not** carry copies of RMA's **and** they may refuse to pick up material that is not properly wrapped. Please notify the driver when a delivery is made that you have material ready to be returned. A copy of the RMA **must** accompany the material being returned.  
**Do not** send material back to Badger via Common Carrier.

**RETURNABLE PALLETS**

## LOW RIB – COMMERCIAL – RESIDENTIAL – STANDING SEAM

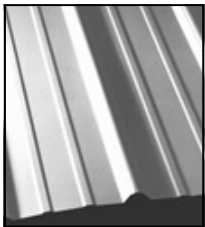

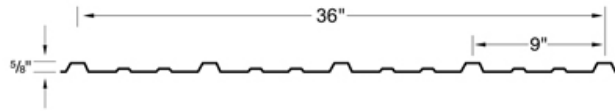

Trims, Fasteners and Ag. Bldg. Accessories are available for all products.

*See Our On-Line Catalog for Pricing.*

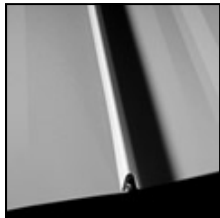

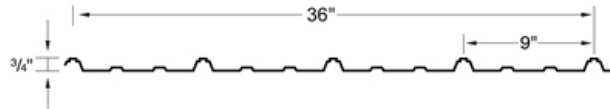

*Badger is now stocking **PANEL-LOC PLUS™** in 14', 16' & 22' lengths in a limited number of colors. We also stock a number of the most popular trims and colors. (See the following pages.)*

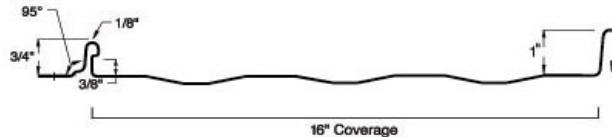

**PANEL-LOC™** is a low rib (5/8") panel that is best used for post frame barns and buildings, as well as residential roofing. PANEL-LOC™ is available in 26 and 29 gauge steel.

**PANEL-LOC PLUS™** is a low rib (3/4") panel which provides durable performance with an added striation on top of the rib that gives it even more strength. PANEL-LOC PLUS™ gives agricultural and light commercial projects, as well as residential roofs, the protection of steel with an attractive appearance.

**HORIZON-LOC™** is a durable concealed fastener roof system with easy snap together installation. This architectural panel system uses minimal visible fasteners, giving your building a clean, attractive finish. The panel's easy snap-on ribs attach rapidly with no hand seaming, so installation is less expensive than traditional standing seam.

**Request for Literature? See Central States Mfg. website or call the Badger Office.**

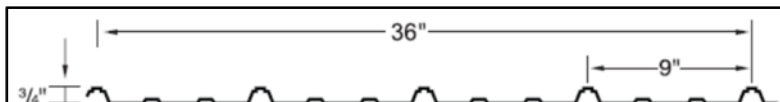

**Panel-Loc Plus™**  
Wall and Roof Panel

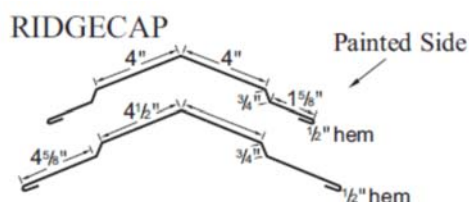

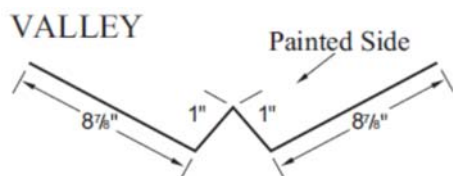

**Panel-Loc Plus™** provides the same durable performance as our Panel-Loc panel, plus an added striation on top of the rib that gives it even more strength. Available in 26- and 29-gauge metal panels, Panel-Loc Plus™ gives agricultural and light commercial projects, as well as residential roofs, the protection of steel with an attractive appearance. The Panel-Loc Plus™ profile from Central States Mfg. has become the standard for excellence in the industry.

F/J Trim

**MWI COMPONENTS**

**COMBINED F/J TRIM, STEEL:** The combined F/J trim is available in two sizes to receive either the soffit panel or a ceiling liner panel.

| Prod. # | Mfg #   | Type    | Length | Color       | 1 – 11  | 12+     |
|---------|---------|---------|--------|-------------|---------|---------|
| A800    | FJS-122 | Soffit  | 10'2"  | Brite White | \$48.81 | \$43.65 |
| A801    | FJC-122 | Ceiling | 10'2"  | Brite White | \$43.17 | \$38.61 |

**UNI-VENT™ II** - will conform to virtually any roof panel configuration. It compresses and fills every void between your ridge cap and the roof panel. Factory applied glue strips allow the installer to roll out Uni-Vent™ and apply it to the roof panel, even in windy conditions. Then, any standard ridge cap can finish off the installation.

| Prod. # | Size          | Mfg #    | Per Roll |
|---------|---------------|----------|----------|
| A820    | 1" x 2" x 20' | 63020001 | \$44.25  |

**LP WEATHER-TITE LOW PROFILE RIDGE VENT**

A low profile, weather-proof and pest-proof ridge vent designed to prevent moisture from entering a metal building structure, as well as insects or other airborne material like dust or plant substances. The Three-Step process is the easiest one-person installation operation for metal roof ridge vent ventilation systems.

Features & Benefits: \* Marco closure material: Crosslink polyethylene foam, 2" thick, 2 lb. Density, charcoal grey color for low visibility. \* Cobra Ridge Vent Materials: A single-vent material. It is a strong, durable, modified polyester, non-woven, non-wicking, fiber-based matting of three layer, non-fabric-covered ridge dimensional construction. \* Peel & Stick strips with permanent adhesive. \* Screw bed for permanent installation. \* Special cut contours keep out moisture and pests. \* Prevents wind Driven rain infiltration. \* 40-year Warranty.  
NOTE: Pitch must be greater than 6" between major rib.

| Prod # | Description | Used With      | Qty/Ctn      | Sold Full Cartons Only |

**PLYCO WALL VENT DOORS**

- ✓A low cost ventilating system designed specifically for metal-clad farm buildings ✓ Pre-hung and ready to install ✓ Low maintenance ✓ Economically priced ✓ Self-flashing - no exterior trim required.
1. Sturdy, weather-resistant closure arms provide trouble-free operation.
  2. Three aluminum strap hinges prevent sagging and cracking of vent panel. A large handle on interior of wall panel is easy to grip for opening & closing.
  3. Frame, mill-finished aluminum extrusion, is designed with extra fin to cover up to 1-3/8" profiles, eliminating additional exterior trims and making the unit self-flashing. This improves appearance, saves labor and speeds installation.

**S-7220 (Standard Hinge):** Pre-hung and ready to install. Self-flashing. Translucent fiberglass panel. Top Hinge.

## **QUAKER WINDOWS & PATIO DOORS**

Quaker is one of the most diversified window companies in the United States, manufacturing vinyl, clad wood and aluminum windows for all building types for over 60 years. Their state-of-the-art factories manufacture windows and patio doors for everything from cabins to high-rises and provide affordable quality and energy efficiency all along the way.

**VINYL WINDOWS & DOORS:** Manchester new construction and AdvantEdge replacement vinyl windows, along with Vinyl Glide sliding patio doors are available in white, sandstone & beige solid colors, which are also paintable in 9 colors. Energy Star compliant glazing is available in all vinyl products.

**CLADWOOD WINDOWS & PATIO DOORS:** Brighton series windows and Quaker's patio door series offer the warmth of a wood interior with extruded aluminum exteriors for long lasting beauty. ClassicFit replacement DH's offer the same advantages for remodeling. All are available in 11 exterior colors and with numerous glazing options.

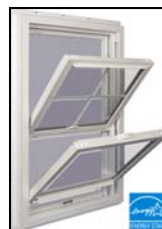

**ALUMINUM WINDOWS & DOORS:** Quaker's thermal break aluminum series are designed for new construction and replacements in everything from residential to commercial applications. They can be very simple or meet the most demanding architectural designs, plus have options for conforming to the most stringent historical specifications. Specialty glass types, painted and anodized finishes, plus employees familiar with commercial projects mean Quaker can supply all your commercial needs. Quaker also brings commercial work within the scope of everyday carpenters with simple installation aides and snap-on trim pieces for even the most complicated projects.

## COMBINATION STORM WINDOWS

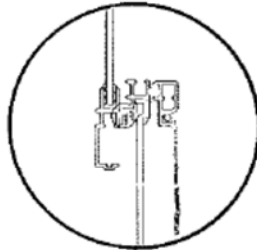

All available in mill finish plus  
nine standard paint colors.

### KENNY SERIES - TRIPLE TRACK

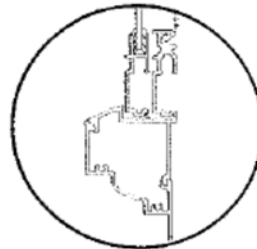

#### **HEADER**

Wrap around glazing resists breakage adding superior durability for this product.

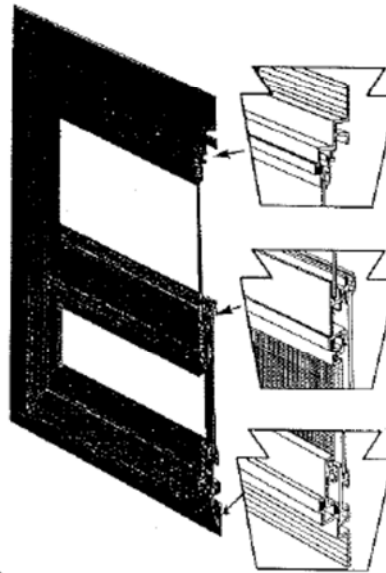

#### **MEETING RAIL**

Metal interlock at meeting rail between glass inserts, seals out draft, water seepage and eliminates wind rattle. Screen meeting rail eliminates wind rattle and keeps out insects.

#### **SILL**

Snap-together frame construction forms a hollow support area for added strength. Triple track system allows top or bottom ventilation.

### PERFECTION SERIES - TWO TRACK

#### **HEADER (Ext. Flange)**

Top insert has extension flange fitting into upper channel to help eliminate draft and wind rattle. Drop-in glaze with a mastic compound backing.

#### **MEETING RAIL (U-Channel)**

Metal interlock at meeting rail between glass inserts, seals out draft, water seepage and eliminates wind rattle. Screen meeting rail eliminates wind rattle and keeps out insects.

#### **SILL (Perfection)**

Double track frame, lift rails with slide bolts, provides screen and glass panels to operate and remove more freely.

The Kenny and Perfection Series are available in all nine standard paint finishes, plus mill.

## HORIZONTAL SLIDER VINYL WINDOWS:

New construction windows with integral nail fins (1-1/4" nail fin set back), external j-channel, clear insulated glass and inside half screen.

## PELLA STORM DOORS

Pella storm doors are engineered to offer exceptional durability, smooth operation, and styles and colors to enhance any home's appearance.

**FEATURES:** Solid core doors have an aluminum skin glued to the core under 75,000 pounds of pressure.

This makes a solid door that won't warp or bend and will stay square in the opening. Extruded door have rigid foam insulation inside and are held together with structurally engineered corner gussets to keep the door square. All Pella storm doors have fully tempered safety glass. Superior moisture protection – a gasket seal to prevent seepage through the window frame and a patented drainage system, including two weep holes, to quickly move moisture away from the core. Decorative aluminum moldings, not plastic – won't fade or crack. Four heavy-duty hinges provide a lifetime of friction-free operation. Bottom sweep matches handles. Concealed installation screws for a clean, finished appearance.

Two color-matched door closers for smooth operation and years of dependable performance.

Lifetime storm door replacement.

**\*REVERSIBLE \*DOUBLE WEATHERSTRIPPING  
\*FULLY GLAZED WATER REPELLENT PRESERVATIVE \*SCREENS**

Panels may be interchanged. Rigid vinyl meeting rails, plus heavy interlocking woven pile weatherstrip.  
It is also frost free because of the pultruded fiberglass sill. All units are glazed with 1" tempered glass.  
Ponderosa Pine is treated with a water repellent preservative.  
Aluminum screen frames have long lasting fiberglass mesh and moves freely on steel rollers.

**Primed or clad sliding and swinging doors are available by Special Order**

## **C.H.I. STEEL GARAGE DOORS**

### **Model #2250 Non-Insulated / #2251 Insulated Raised Panel Door**

Built for both longevity and value, the 2250/2251 recreates the elegant look of wood with a deeply-embossed, distinctive panel design.

#### **FEATURES:**

- Door sections are formed from heavy, 25-gauge galvanized draw quality steel.
- Section joints are roll-formed into a tongue and groove which produces a superior weather seal.
- Full height steel hardware attachment plates and white end caps.
- Nylon rollers assure smooth, consistent, efficient and quiet operation.
- Inside stiles are made of galvanized steel and stile holes are "dimpled" for increased holding power.
- Hinges are stamped from galvanized steel in a "wide body" pattern for greater stability and longer life.
- Paint system includes .25 mil primer with rust inhibitor plus .75 mil coating of baked-on polyester paint.
- No lock standard.
- Model 2251 includes insulation, with a white vinyl back cover, R-Value = 7.94.
- S3 spring winding system.
- 12" headroom required on all doors, plus an additional 3" for operator.
- All stock doors include one strut for operator prep.
- 16 x 8 & 18 x 7 have 3 total struts. 18 x 8 has 5 total struts.
- Packaging: 2 or 3 cartons of panels, 1 carton hardware, strut(s), torsion bar w/spring, track bundle.

## **C.H.I. STEEL GARAGE DOORS**

### **Model #2283 Raised Panel Sandwich Door**

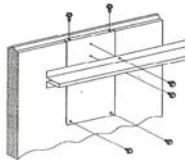

A beautifully sound, top-of-the-line model designed to be both energy efficient and low-maintenance.

#### **FEATURES:**

- 2" thick, 2-sided steel raised panel sandwich door, 27 ga. Inside & Outside
- Core is 1-13/16" CFC-free polystyrene insulation -glued both sides - R-Value: 9.65.
- Full height steel hardware attachment plates and white end caps.
- Nylon rollers (up to 8' tall) or steel rollers for consistently smooth operation.
- Heavy duty 16 ga. (up to 8' tall) or 14 ga. hinges with 'wide body' pattern for greater stability and longer life.
- Paint system includes .25 mil primer with rust inhibitor plus .75 mil coating of baked on polyester paint.
- Special Order doors are available in eight designer colors. Inside is always white.
- No lock standard.
- S3 spring winding system.
- 12" headroom required on all doors, plus an additional 3" for operator.
- All stock doors include one strut for operator prep.
- 16 x 8 has 3 total struts.
- 10 x 8 has operator attachment plate included (no center style).
- Packaging: 2 or 3 cartons of panels, 1 carton hardware, strut(s), torsion bar w/spring, track bundle.

#### Special Order Colors Available:

Bronze, Bahama Brown, Terratone, Green, Almond, Eggshell, Wineberry & Beige.

**\*Note:** Rough opening should be 3" wider and 1-1/2" higher than desired finished opening.

**Available in four models:** 944 doors are best suited for self storage, residential and some light-commercial applications. 955 doors, available in larger sizes, are designed for higher cycle use and best suited for light commercial applications. 944WL and 955WL models are windlock door options designed for maximum wind load resistance.

**Available in 11 standard, prefinished colors:** Garnet, Desert Tan, Cedar Red, Roy-

al Blue, Polar blue, Evergreen, Iced White, Continental Brown, Sunset Orange, Shale & Bright White.

**Strong, Durable Materials:** Solid 26-gauge, Grade 80 rigid-rib steel curtain is durable, attractive, and requires little maintenance. Drums, designed to support panel length, assure proper support and smooth operation.

**Easy to Install:** Factory pre-assembled door nest is easy and economical to install. Roll-up design offers easier installation. Factory-punched holes in brackets and guides allow for quick installation.

**Smooth, Quiet Operation:** Sturdy zinc-coated steel guides with polypropylene runners allow doors to operate easily. Low maintenance bearings, standard on all Trac-Rite doors, assure smooth operation.

**Minimal Back Room Required:** Roll-up design allows for minimal back room and reduced head room requirements which is beneficial when working with high eave structures.

**Rust Resistant:** Aluminum bottom assembly, stainless steel bolts, and Thermal Plastic Elastomer (TPE) astragal provides corrosion resistance.

**Full Line of Accessories:** Motor operators, chain hoists, insulation. Top and side seals are also available to provide weather resistance perimeter seal.

**HERITAGE® SHINGLES: Algae Resistant**

HERITAGE® shingles feature a double-layer fiberglass mat construction with a random-cut sawtooth design. The two layers of mat are coated with asphalt and then laminated together and surfaced with mineral granules. A self-sealing strip of asphalt helps provide wind resistance. Shadowtone granule blend adds extra richness and depth. Random-cut sawtooth design prevents unsightly zipper patterns. Extra-thick weather-resistant construction provides years of protection.  
**30 year limited warranty. U.L. Class A fire rated and U.L. wind related.**

**Classic Heritage®** colors are time-honored favorites that create a traditional look.

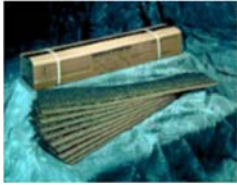

**Heritage® America's Natural Colors®** add a contemporary flair with dramatic and vibrant hues.

**Heritage® Woodgate™** are designed with a wider cut that conveys a rugged yet refined wood-shake look. Unique color blend complements the expansive look and allows for more dramatic color distribution across the shingle. Enhanced shadow line further intensifies the rustic shake-like beauty.

**Moisture Guard**

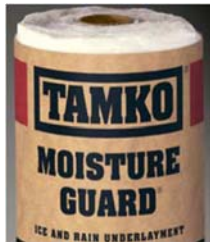

For use as a self-adhering underlayment prior to installation of the final roof system and as a secondary layer used in areas susceptible to wind blown rain and ice damming. Moisture Guard is used on roof decks, along rake and eave edges, valleys and ridges, and around chimneys, dormers, vents and skylights. Moisture Guard is used under most types of roofing, including tile, wood shake, asphalt, slate or composite shingles. It is not recommended for use under metal roofing.

**ROOFING UNDERLAYMENTS****Priced Per Roll****TAMKO® TW Underlayment**

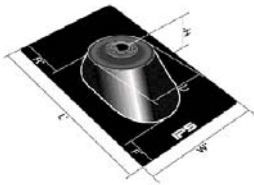

Is a flexible, self-adhering rubberized asphalt sheet membrane with a polymer film on the surface and a removable treated release film on the adhesive side. It is well suited for use as an underlayment where prevention of water penetration is required including under metal roofs\*. TW Underlayment also provides secondary protection against water penetration after installation of the roof system. When fasteners penetrate the TW Underlayment membrane during installation of a metal roof system, the metal roof system manufacturer's recommendations should be followed to assure watertight integrity at the fastener penetrations. \*Before installing TW Underlayment under copper roofing, a design professional must be consulted to analyze the interaction of the building, roof deck, and roof assembly with regards to adequate temperature resistance.

| Prod # | Size          | Sq. Ft./Roll | Qty/Pallet | Mil    | Any Qty  |

| <b>FelTex®</b> , our premium synthetic roof underlayment, is among the safest, strongest, and best-performing roof underlayments on the market. It balances strength and weight, provides dynamic steep-slope traction, and will not buckle, warp or crack. FelTex is rated for commercial and residential applications using plastic cap fasteners and roofing nails (3/8-inch head), and is an ideal underlayment for asphalt, shingles, metal, tile, slate, and a variety of sloped roofing materials. Skid-resistant surfaces and the proprietary Fiber Claw® textured surface make FelTex the best choice for steep slope applications. Whether you're working on a FelTex-protected roof, or living underneath one, you'll appreciate FelTex's quality. |            |               |                        |                     |                       |                  |
| C0050                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 10 Square  | 4" x 250'     | 36 Rolls               | \$212.55            |                       |                  |
| <b>CoverPro 2000®</b> combines the value-added performance of synthetic underlayment with the cost of 15 lb roofing felt. coverpro provides the features you demand for fast and simple installation and robust performance under asphalt shingle roofing. Manufactured from 100% synthetic materials, CoverPro is the engineered solution that finally offers the performance you need, at a price competitive with 15 lb felt. Faster installation, better installed performance, a 20-year limited warranty and full-color Broadcast® custom printed advertising by WRALPLAB® makes CoverPro the right choice for your next job                                                                                                                            |            |               |                        |                     |                       |                  |

| The new water-tite 3-in-1 flashing is a unique single flashing that can be easily adjusted to fit 1-1/2", 2" or 3" pipe. By simply pulling the clearly marked tab for 2" or 3", or use as is for 1-1/2", this one flashing takes the place of 3 flashings. <b>CHECK THESE BENEFITS:</b> Fits all roof angles -- from flat to 45 degrees. Thermoplastic hard base with elastomer collar.                                                                                                                                                                                                                                                                                                                                                                       |            |               |                        |                     |                       |                  |

**FOAMULAR® 250 Rigid Foam Insulation:**

For exterior walls contains hundreds of millions of densely packed air cells to provide exceptional thermal performance. It's also virtually impervious to moisture, preventing loss of R-value due to moisture penetration.

FOAMULAR® weighs considerably less than plywood, OSB or other non-insulation material so it's easier, faster and safer to install. Plus, the product's built-in rigidity means it can be scored and snapped, cut, or sawed with common tools.

Sagging and settling are never a problem.

Moisture Resistance: 0.1% water absorption by volume for long-lasting performance.

Compressive Strength: Maintains top function and integrity.

Versatility: Engineered for a variety of sidewall, below-grade and roofing applications.

Thermal Performance: Made from high-density, closed-cell extruded polystyrene foam.

Easy Installation: Saves time and money since it is fast and efficient to install.

**#250 (Minimum 25 PSI Compressive Strength – Yellow): R= 5.4 Per Inch**

**TITEBOND® WEATHERMASTER™ METAL ROOF SEALANT:**

Is specifically formulated to outperform all other sealant technologies, including silicones, tri-polymers, and polyurethanes. This superior polymer formula provides a waterproof seal against water, wind, dust and dirt. It offers exceptional adhesion to Kynar™ coated metal materials, along with standard metal, aluminum, steel, galvanized bonderized surfaces, plastics and glass. The product is ideal for use on a wide variety of metal roof, trim, architectural metal siding, aluminum, galvanized steel, galvanized gutters, flashing and downspouts. It also provides unbeatable adhesion to wood, brass and other common building substrates.

**J.L. INDUSTRIES ROOF HATCHES**

Single leaf hatches. Galvanized steel, primed painted, second dimension is hinged side. BRHG series roof hatches provide convenient, weather-tight access to the roof of a building and may be opened to meet the occasional need for auxiliary ventilation. Babcock Davis hatch covers use specially designed hinges to open to a full 90o, while a sturdy hold open arm allows the hatch to remain open.

**SPECIFICATIONS:**

U Value: 0.173 to .093; Insulation: 1" or 2" styrofoam; Cover Curb: 14 gauge; Cover Liner: 22 gauge; Corrosion Protection: mill applied electrostatic zinc coating; Counter Flashing: 14 gauge; Painted Surface: corrosion resistant prime painted.

WeatherBond's Materials estimator is designed to facilitate the development of a materials list. Due to the unique nature of each individual project we make no representations that the list provided will be absolute.

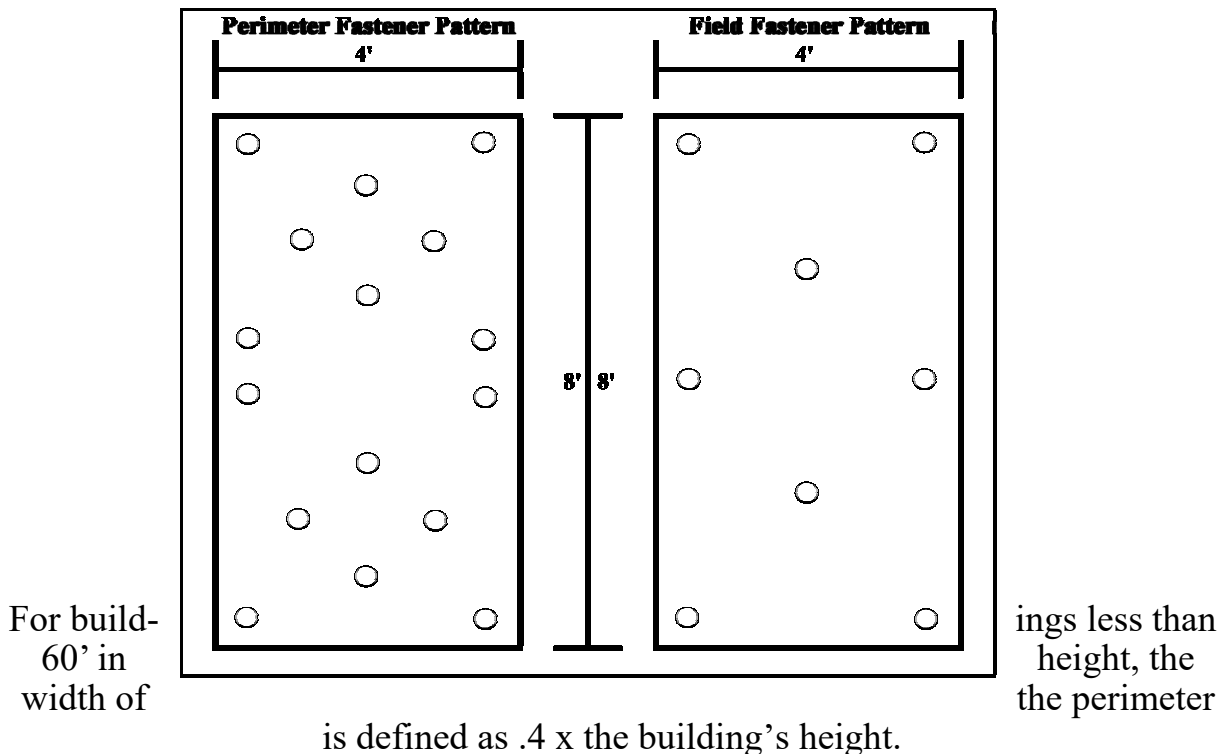

## INSTALLATION OF INSULATION (OPTIONAL)

Butt all insulation boards together, staggering the joints. All spaces larger than one-quarter inch (1/4") must be filled to provide a uniform smooth surface.

Screws and deck plates shall be applied at the minimum rate of eight (8) per 4' x 8' sheet of insulation, and five (5) per 4' x 4' sheet, or as required by the insulation manufacturer. When installing insulation around the perimeter, the fastening pattern is one (1) deck plate and one (1) screw every two (2) square feet or sixteen (16) per 4' x 8' sheet in a diamond in the box pattern, and eight (8) per 4' x 4' sheet.

Extra fasteners should be installed around protrusions such as pipes, chimneys, skylights, and irregularities in the roof deck.

Do not lay more insulation than can be covered with the WeatherBond EPDM membrane by the end of the working day.

| Weatherbond Lap Cement can be used to seam 2 pieces of E.P.D.M. membrane together, and to adhere uncured E.P.D.M. Flashing to the E.P.D.M. membrane.                                                                                                                     |           |         |        |           |
| CW1021                                                                                                                                                                                                                                                                   | 1 Gal.    | 6       | 1 Gal. | \$68.10   |

## MATERIALS NEEDED FOR SEAMING & FIELD FLASHING

### UNCURED PEEL & STICK ROLLED FLASHING

Weatherbond P/S Flashing is used to flash in objects that are in the field. Prior to installation the substrate must be primed & cleaned. To ensure proper adhesion, all flashings must be rolled in with a hand roller.

| Prod # | Size      | Qty/Ctn | UOM  | Price/UOM |
|--------|-----------|---------|------|-----------|
| CW1040 | 12" x 50' | 1       | Roll | \$507.05  |
| CW1039 | 6" x 100' | 2       | Roll | \$403.49  |

### LAP CAULK

Lap Caulk is applied to all exposed cover strip, flashing and edges to prevent water from entering the joint.

| Prod # | Size     | Qty/Ctn | UOM  | Price/UOM |
|--------|----------|---------|------|-----------|
| CW1025 | 10.1 oz. | 25      | Tube | \$12.51   |

### WATER CUT-OFF MASTIC

A one-component, low viscosity, self wetting, Butyl blend mastic used as a sealing agent between the EPDM membrane or Uncured Flashing and applicable substrates.

| Prod # | Tube Size | Qty/Ctn | UOM  | Price/UOM |
|--------|-----------|---------|------|-----------|
| CV1050 | 1 lb      | 25      | Tube | \$10.53   |

### TERMINATION BAR

Weatherbond termination bar is used around the perimeter of the roof. It is applied by using galvanized screws. The top side of the termination bar needs to be caulked with lap caulk.

| Prod # | Size | Qty/Ctn | UOM  | Price/UOM |
|--------|------|---------|------|-----------|
| CW1041 | 10'  | 50      | Each | \$12.89   |

### POLYCARBONATE SNO-GEMS

Manufactured from UV stabilized polycarbonate, the unique design of these crystal-like guards suspends the field of snow until the snow and ice gradually melt under the sun's rays.

**CUT:** SNO-GEM snow guard's prismatic design was developed by architectural sheet metal professionals with over 50 years of on-the-roof experience.

**CLARITY:** SNO-GEM offers a clear prismatic snow guard which retains its crisp, clean good looks. There's no metal to rust or stain. SNO-GEM snow guards are unaffected by climate extremes.

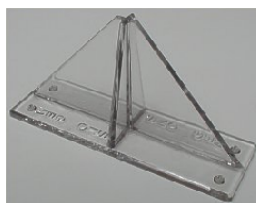

**COLOR:** SNO-GEM snow guards can be matched to all industry standard metal roof colors. SNO-GEM also offers an unlimited amount of custom colors to meet architectural requirements.

The color is injected throughout the material.

**CARAT:** The true measure of a gem's worth. At the heart of each SNO-GEM is an engineered, multi-directional, multipurpose drain opening for melting snow and ice to flow freely, plus cables can be easily routed through the opening. Manufactured from UV stabilized polycarbonate, the unique design of these crystal-like guards suspends the field of snow until the snow and ice gradually melt under the sun's rays.

EcoFill Wx blowing wool insulation is an unbonded, virgin fibrous glass blowing insulation having a high degree of post-consumer recycled content, designed for weatherizing and retrofitting existing housing.

EcoFill Wx blowing wool insulation is used to dense-pack sidewalls using the drill and fill technique common in retrofitting homes or in home weatherization activities. EcoFill Wx blowing wool insulation is also excellent for doing open blows in attics. This means that only one product is needed to complete an insulation retrofit/weatherization project.

Bag Net Weight - 28.6 lbs., 27.6 lbs. minimum.

Coverage and installation data were determined using a Volu-Matic® II blowing machine in 3rd gear with a 13" gate opening, 2.0 psi air pressure and 150' of 3" diameter internally-corrugated hose.

\*"R" means resistance to heat flow. The higher the R-value, the greater the insulating power. To get the marked R-value it is essential that this insulation be installed properly. If you do it yourself, get instructions and follow them carefully. Instructions do not come with this package.

\*\*Based on a Third Party 2-year settling study, the predicted settlement over a 20-year period would be 1 percent or less. This amount of settling is thermally insignificant. Therefore, the installed and settled thickness is effectively the same.

Volu-Matic® II is a registered trademark of Unisul.

**HomeGuard Housewrap** offers a complete solution to protecting the building envelope from the weather's elements. HomeGuard Housewrap is a micro-perforated, woven weather resistive barrier. HomeGuard HP Plus is a non-woven, non-perforated, water vapor permeable, air barrier and protects the building envelope from air, wind, rain and moisture. HomeGuard Butyl Flashing and HomeGuard Seam Tape complete the weather barrier system. Backed by a 10 year warranty and available in several different sizes, HomeGuard products are the right choice for your building project.

#### HomeGuard Housewrap

HomeGuard Housewrap is a woven, perforated, high-quality polyolefin housewrap. Its micro-perforations allow moisture vapor to pass through yet protects the exterior wall system as a water resistant barrier. As a preventative for air infiltration, HomeGuard housewrap reduces air infiltration, which increases the efficiency of a building's insulation system and saves on heating and cooling costs. HomeGuard housewrap is durable, able to withstand harsh jobsite conditions and it is UV resistant for up to 6 months.

#### HomeGuard Titan Drainage Wrap

HomeGuard® TITAN® is an advanced Non-Woven, Non-Perforated, Housewrap & Air Barrier Material that has been engineered as a Drainage Material to provide superior performance while exceeding the most stringent criteria for the Building Thermal Envelope. With premium performance in Air Holdout and Water Resistance, TITAN non-perforated housewrap minimizes air intrusion and maximizes the thermal efficiency of the best designed wall systems.

#### HomeGuard ToughSkin 20

HomeGuard® Toughskin® is an engineered, mechanically attached synthetic underlayment for sloped roofs, designed to meet the needs of today's roofing. HomeGuard Toughskin's high-strength design is 25X stronger than 15 lb. Saturated Felt and 5X lighter than 30 lb. Saturated Felt. With each roll having 10 squares of coverage (48" x 250'), your installations will be faster, and more efficient,

### FOAMULAR® 250 Rigid Foam Insulation:

For exterior walls contains hundreds of millions of densely packed air cells to provide exceptional thermal performance. It's also virtually impervious to moisture, preventing loss of R-value due to moisture penetration.

FOAMULAR® weighs considerably less than plywood, OSB or other non-insulation material so it's easier, faster and safer to install. Plus, the product's built-in rigidity means it can be scored and snapped, cut or sawed with common tools.

Sagging and settling are never a problem.

Moisture Resistance: 0.1% water absorption by volume for long-lasting performance.

Compressive Strength: Maintains top function and integrity.

Versatility: Engineered for a variety of sidewall, below-grade and roofing applications.

Thermal Performance: Made from high-density, closed-cell extruded polystyrene foam.

Easy Installation: Saves time and money since it is fast and efficient to install.

### FOAMULAR® HALF INCH Thin Rigid Foam Insulation Panel:

Provides a flat smooth surface for the installation of new siding over old and an R-value of up to 3.0 (much higher than other residing underlayments) it will maximize and improve energy efficiency, especially in older houses. Natural skin surfaces make foil facing, and the problems that it presents unnecessary.

**ATLAS EnergyShield® CGF Continuous Wall Insulation**

Atlas EnergyShield® CGF (formerly Rboard®) is composed of a closed cell polyisocyanurate (polyiso) foam core, faced with a non-reflective coated glass-mat facer on both sides. The blowing agent used to produce the polyiso foam core does not contain any CFCs, HCFCs or HFCs. EnergyShield® CGF has zero Ozone Depletion Potential (ODP) and negligible Global Warming Potential (GWP). Atlas EnergyShield® CGF combines high R-value, enhanced durability from two coated glass-mat facers, and water resistive attributes in a high performance rigid Wall insulation. EnergyShield® CGF is suitable for a variety of continuous insulation (CI) applications.

Panel sizes are 4' by 8' or 4' by 9'. Panels can be supplied in nominal 16" and 24" widths for use masonry cavity wall applications. Custom sizes are also available.

**APPLICATION:**

EnergyShield® CGF is recommended for use in residential applications as well as some commercial construction applications, check local building codes for compliance. The coated glass-mat facers enhance the products durability and are more permeable than foil facers.

## PROTECTIVE WINDOW COVERS and AREA WALLS

### WELLCRAFT WINDOW EGRESS SYSTEM

The Wellcraft Window Egress System, made of high density polyethylene, is easy to install (new construction and remodeling) and maintenance free. The plexiglass cover keeps debris and bad weather outside while it allows 95% of sunlight inside.

**Model #2060:** Built-in ladder; 12" x 18" no-clog drain; UV stabilized; Durable and flexible, freeze to thaw; 5-year warranty.

## Wis. Plastic Drain Tile

### CORRUGATED PLASTIC TUBING

✓ Field Drainage   ✓ Erosion Control   ✓ Drain Foundation   ✓ Drain Floors   ✓ Gutter Drain  
✓ Washer & Sump Drain   ✓ Basement Window Drain   ✓ Grade Control

### SPECIFICATIONS

#### BUILDING

✓ Meets ASTM F405 Standard or Heavy Duty as marked.   ✓ Meets FHA MR 837.  
✓ Meets NSF-DRAIN certification.   ✓ Member of Southern Building Code Conference.

#### AGRICULTURE

✓ Meets ASTM F405 & F449.   ✓ Meets USDA-SCS 606 & 706 latest revision.

#### SEPTIC/LEACH FIELDS

✓ Meets ASTM F405 Heavy Duty.   ✓ Certified by NSF as NSF-DRAIN.

#### FIRE RATING

This polyethylene is classed as UL "Slow Burning" and is intended for underground use only. Gives off no toxic chlorine gas.

#### MATERIAL

Meets ASTM D1248, Polyethylene Materials.

#### CHEMICAL RESISTANCE

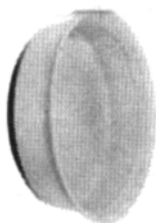

Tested in accordance with ASTM D543 and is resistant to all common home, lawn, garden, and soil chemicals, pesticides, and fertilizers.

| Titebond® WeatherMaster™ X-TREME Multi-Purpose foam is a triple expansion, low pressure, one-component polyurethane foam sealant. It is moisture-cured and designed to seal and fill small cracks and voids. This product creates a tight barrier against noise, moisture and infiltration – even in X-TREME temperatures.                                                                                                                        |       |          |          |         |            |          |

| Titebond® WeatherMaster™ X-TREME Multi-Purpose Cleaner is designed to clean up WeatherMaster X-TREME foam sealants. This product is an acetone cleaner and is not meant to be used on surfaces that are not solvent or acetone resistant. The Cleaner is a spray solvent used to dissolve uncured foam. X-TREME Cleaner can also be attached to the WeatherMaster X-TREME Dispensing Unit, allowing it to be flushed and kept clean and operable. |       |          |          |         |            |          |

| Titebond Concrete Repair is a durable, acrylic latex formula for the repair of cracks in concrete, masonry and stucco surfaces. It is ideal for sidewalks, patios, basements, driveways and house structures. In addition, it develops a strong, flexible bond that will not chip, peel or pull away from the surface.                                                                                                                        |       |           |       |         |            |          |

**TITEBOND® WEATHERMASTER™ SEALANT**

Has been specifically formulated to outperform all other sealant technologies, including silicones and urethanes. This superior polymer formula provides the best possible performance on siding, windows, doors and vents. In addition to offering exceptional flexibility, it provides unbeatable adhesion to wood, fiberboard, vinyl, aluminum, metal, brass and other common building materials.

| Is specifically formulated to outperform all other sealant technologies, including silicones, tri-polymers, and polyurethanes. This superior polymer formula provides a waterproof seal against water, wind, dust and dirt. It offers exceptional adhesion to Kynar™ coated metal materials, along with standard metal, aluminum, steel, galvanized bonderized surfaces, plastics and glass. The product is ideal for use on a Wide variety of metal roof, trim, architectural metal siding, aluminum, galvanized steel, galvanized gutters, flashing and downspouts. It also provides unbeatable adhesion to wood, brass and other common building substrates. |       |           |             |         |            |          |

| <p><b>Type I TCC Portland</b> cement is designed for use in a variety of applications, are manufactured to meet virtually any construction challenge and meets all requirements as outlined in ASTM C150. Portland cement is one of the most widely used basic building materials in the United States because it is durable, dependable, cost-effective, and suitable for a variety of concrete construction applications. Portland is used to construct pavements, sidewalks, reinforced concrete buildings, bridges, railway structures, tanks, reservoirs, culverts, water pipe, and masonry units and provides strength characteristics for conventional ready mix requirements, as well as construction where high strength is needed. #100908.</p> |         |            |                        |             |

## CONCRETE SEALER AND WATERPROOFING

Sealcrete penetrates deep into the concrete, forming a permanent waterproofing barrier that becomes an integral component of the cement structure. Sealcrete is a one coat application; easy to use on all forms of masonry, concrete, stucco, brick, cement block, adobe, and limestone. It can be applied with brush, roller, mop or low pressure spray (20-30 PSI). Typical coverage is 150-350 sq. ft. per gallon depending on porosity of the concrete.

### OTHER FEATURES:

- Permanently resists water
- Non-toxic
- Non-flammable
- Environmentally safe
- Odorless
- Cleans with water
- Prevents mildew growth
- Resists stains
- Retards pitting & dusting
- May be painted over, and will accept concrete topping or mastics for floor tile, etc.
- Meets all federal and local standards

## CONCRETE REINFORCING BARS

### REINFORCING BARS - 20'LENGTH

An important component of reinforced concrete and reinforced masonry structures.

#### Grading:

**Grade 60** has the highest tensile strength, it is the most difficult to bend.

**Grade 40** is the most bendable

Badger offers rebar in the following grades and sizes:

| Prod # | Mfg #    | Grade | Diameter | Lbs/Bar   | Qty/Bndl |
|--------|----------|-------|----------|-----------|----------|
| D0099  | #3 (#10) | 60    | 3/8"     | 7.52 lbs  | 266 Bars |
| D0095  | #4 (#13) | 60    | 1/2"     | 13.4 lbs  | 150 Bars |
| D0098  | #4 (#13) | 40    | 1/2"     | 13.4 lbs  | 150 Bars |
| D0096  | #5 (#16) | 60    | 5/8"     | 20.86 lbs | 96 Bars  |
| D0097  | #6 (#19) | 60    | 3/4"     | 30.0 lbs  | 68 Bars  |

( ) = New Metric Standard for Sizes & Grades.

## **FAIRWAY VINYL RAILING**

### **Features and benefits of Fairway Vinyl Systems**

Fairway Railing is a boxed system. Everything arrives neat and clean in color-coded boxes.  
Both composite and vinyl railings. Four railing styles to choose from. Two top rail offerings (standard & contour).  
Aluminum reinforcement in both the top and bottom rails. Two baluster offerings (square & turned).  
Full line of accessories. Most accessories for Fairway Boxed System work with Composite System.  
Bracketed system for fast and easy installation (new construction & existing structures). Brackets are 2-piece, tight fitting and no visible screws. Transferable Lifetime Warranty. BOCA Approved.

Standard Railing w/ Square Balusters

Classic Contour Railing w/ Square Balusters

### **36" VINYL RAILING KITS w/ SQUARE BALUSTERS**

#### **Standard Railing w/ Square Balusters:**

Includes: 1-3/8" x 1-3/8" square balusters. Mounting brackets w/ trim rings. Standard style 2" x 3-1/2" top rail + aluminum reinforcement. 2" x 3-1/2" aluminum reinforced bottom rail.

| w/ Photo eye, Timer, Remote & Bluetooth 50 Watt, 12 Volt DC, 4.2 Amps Programmable Smart Power Supply includes a uniquely paired remote key fob, 4' output wire lead with molded Tee connector, and 5' wired remote photocell. Built in Bluetooth controls, LED dimmer, timer (1-8 hours or dusk to dawn), teachable photo eye, and diagnostic troubleshooting modes. Android and iPhone apps available. Add up the total wattage of all the bulbs you will be using. This will give you an estimate of which size lighting transformer you will need. Will power approximately a maximum of 65 each (0.8 Watts) lights. |       |         |                 |

### Exceptional Outdoor Living for Every Taste and Budget

Have more time to do what you love on a Fiberon composite deck. A high-performance, eco-friendly wood alternative, Fiberon decking offers the warmth and appeal of natural hardwoods without all the time and expense of maintenance. Choose from a wide range of colors and finishes to suit your style and budget.

**HORIZON SYMMETRY COLLECTION**

Symmetry Decking offers the most natural look, feel, and color palette available today in luxury composite decking, all balanced with time-tested durability and performance.

The low-gloss formulation and unique micro-texturing process create a beautiful matte finish. Multi-tonal streaking echoes elegant hardwoods. And the colors? Inspired by natural elements and pigments, the palette is subdued yet striking.

Equally impressive is the uncompromising performance and easy maintenance. Our four-sided PermaTech cap layer resists fading and staining, while the durable composite core means no splintering, cracking, insect infestation, or decay.

## HORIZON

From its dramatic color tones and multiple wood grain patterns to the polish and protection of capping on all four sides, Fiberon Horizon® Decking is the composite deck board for those who won't compromise. Horizon is capped (or covered) on all four sides with PermaTech® surface material and never needs sanding, staining, or sealing. Four-sided capping increases durability, enhances stain and fade resistance, and ensures a polished appearance all around. Plus, Horizon boards feature two different wood grain patterns on the top and bottom for more design options and less material waste. All this, and at a price that is comparable to others' non-reversible boards.

**GOOD LIFE MULTI-CHROMATIC**

Fiberon Good Life decking offers the low maintenance of a composite at a price that's closer to wood.  
 Capped on three sides with a tough protective finish, Good Life decking resists staining and fading.  
 And, with its solid composite construction, you can say goodbye to rotting, warping and splintering boards too.  
 Choose from two solid colors that resemble traditional painted or stained decking.  
 Good Life delivers good looks and great performance at a price that can't be beat.

### Royal S4S PVC SurEdge Trimboard™

Royal® Sureedge's four-sided finish and "true square" edges prove that curb appeal and clean installation lie in the details. Plus its broad range of complementary thicknesses, widths, lengths and styles—and its never rot durability—end all conversations that start with, "Which is the best trimboard?"

| Reversible S4S Boards                                                             |          |           |       |        |          | Per Piece |

### E-MOUNT ELECTRICAL BLOCK

A dual-purpose electrically-approved mounting block engineered for both light fixtures and electrical receptacle applications. e-Mount's electrical box is self-contained within the block, greatly simplifying wiring. The result is a flush-mounted device that requires virtually no air infiltration.

| Outside Dimensions | Depth of J-Channel | J-Channel Positions | Mfg # | Units Per Ctn | Less'n Ctn | Full Ctn |
|--------------------|--------------------|---------------------|-------|---------------|------------|----------|
| 7.5" x 7.75"       | 1"                 | .8"                 | 10*** | 10            | \$23.04    | \$21.62  |

### S-MOUNT STANDARD MOUNT

Can be used for mounting light fixtures, receptacles or faucets. Two-piece design with a 1-inch hole. Also available in a range of popular colors.

Note: To be used in conjunction with an electrically-approved box.

| Outside Dimensions | Depth of J-Channel | J-Channel Positions | Mfg # | Units Per Ctn | Less'n Ctn | Full Ctn |
|--------------------|--------------------|---------------------|-------|---------------|------------|----------|
| 7.5" x 7.75"       | 1"                 | .75" to 1.25"       | 13*** | 10            | \$15.50    | \$14.55  |

### L-MOUNT LARGE STANDARD MOUNT

Can be used for mounting light fixtures, receptacles or faucets. Two-piece design with a 1-inch hole. Also available in a range of popular colors.

Note: To be used in conjunction with an electrically-approved box.

| Outside Dimensions | Depth of J-Channel | J-Channel Positions | Mfg # | Units Per Ctn | Less'n Ctn | Full Ctn |
|--------------------|--------------------|---------------------|-------|---------------|------------|----------|
| 7.5" x 12"         | 1"                 | .75" to 1.25"       | 41*** | 10            | \$26.31    | \$24.69  |

### R-MOUNT RECESSED SPLIT MOUNT

The ideal mount for remodeling. Larger than the industry standard, it allows easier use of receptacles and faucets, as well as more room for clear turning of the faucet handle.

| Outside Dimensions | Depth of J-Channel | J-Channel Positions | Mfg # | Units Per Ctn | Less'n Ctn | Full Ctn |
|--------------------|--------------------|---------------------|-------|---------------|------------|----------|
| 6" x 8.5"          | 1"                 | .75" to 1.25"       | 15*** | 10            | \$17.45    | \$16.38  |

### S-VENT SOFFIT VENT COVER - Snaps onto b-Vent converting it to a soffit or intake vent.

| Outside Dimensions | Color | Mfg # | Units Per Ctn |         |         |
|--------------------|-------|-------|---------------|---------|---------|
| 7.75" x 7.75"      | White | 18*** | 10            | \$11.07 | \$10.40 |

### D-VENT HOODED VENT W/4" METAL TUBE

Unique paddle wheel design helps to eliminate lint build-up and discourages birds and rodents from entering vent. Lid is recessed into the base when the dryer is not running, further discouraging bird/rodent entry. Cover snaps onto base, hiding paddle wheel and flaps. Unique tube connection on back allows for easy retrofit.

| Outside Dimensions | Depth of J-Channel | J-Channel Positions | Mfg # | Units Per Ctn | Each    |
|--------------------|--------------------|---------------------|-------|---------------|---------|
| 8" x 9"            | 1"                 | .75" to 1.25"       | 46*** | 1             | \$35.24 |

### B-VENT EXHAUST VENT W/4" METAL TUBE

Low profile exhaust/dryer vent with practical features, including snaps for accepting 4" tubes and grid to keep birds out. Adjusts from .75" to 1.25". Available in a range of popular colors.

| Outside Dimensions | Depth of J-Channel | J-Channel Positions | Mfg # | Units Per Ctn | Each    |
|--------------------|--------------------|---------------------|-------|---------------|---------|
| 7.25" x 7.25"      | 1"                 | .75" to 1.25"       | 45*** | 1             | \$30.74 |

### 4" to 3" REDUCER - Used with the b-vent.

| Badger Prod # | Mfg # | Units Per Ctn | Less'n Ctn | Full Ctn |
|---------------|-------|---------------|------------|----------|
| BGP1800       | 34*** | 20            | \$6.15     | \$5.78   |

| GreenGuard® Q-Series products consist of rigid, extruded polystyrene foam with tough polystyrene capsheets that are designed to withstand the rigors of jobsite handling. These products provide a smooth, level surface for new siding. The products are perforated to allow potentially harmful moisture vapor to escape so that it does not become trapped in the wall systems. |       |                 |                          |                          |             |

24" Sill Stones

'Stack-n-Tack' stone siding is an easy to install, mortar less, stone siding that can be nailed or screwed on to any surface. This stone siding can be used for residential as well as commercial jobs. We have made the process so easy even the home improvement novice can add value to their home or commercial building by adding 'Stack-n-Tack' stone siding. 'Stack-n-Tack' stone siding is not only the easiest stone on the market to install, it is a durable maintenance free alternative to real stone. By eliminating the mortar process involved in traditional cultured stone applications we have dramatically cut down on the cost, labor and expertise needed to install our stone. Simply line it up, nail it on and you too can install 'Stack-n-Tack' stone siding.

To ensure our customers the best in quality stone, we have put our 'Stack-n-Tack' stone siding through extensive testing and here are our results.

**Technical Specifications:** Compressive Strength: 3000 psi : Splitting Strength: 790 psi : Absorption: 13.3% increase in weight of stone if submerged in water : Thermal Resistance: R = .60 : Durability: numerous installations of similar products in Alaska, Canada and Northern United States are successful tests in themselves of the durability and freeze/thaw resistance of 'Stack-n-Tack' stone siding : Color Retention: only permanent mineral oxide colors are used. No detectable color change can be observed even after years of weathering

**HARDENED POLE BARN NAILS**

Also excellent for common nail application. Sharp threads provide excellent holding power in pressure-treated poles and timbers. Also popular for other applications where high holding power is required. (It is recommended that safety glasses be used when driving hardened nails.)

| Designed for exterior use with composite materials. Eliminates mushrooming and blemishes that can occur on composite materials. Pancake head pulls excess material into hole while counter sinking. Star Drive – twice the torque of Phillips or square Drive. Tapered threads grab excess material and pull it down. Coarse threads – deep, wide and sharp threads cut cleanly and easily with maximum holding power. |                |              |                |         |        |         |

| Perfect for heavy construction problems. True flat head with cutting nibs prevents spin out and will self countersink. Sharp, deep threads cut cleanly and easily with maximum holding power. Sharp point Drives easily, won't back out like nails. High quality steel – heat treated and hardened. Gold zinc coating offers moderate corrosion resistance. |          |        |             |                |          |          |

| POST ANCHORS: Provide 1-inch elevation above the concrete surface with built-in drain slots to keep posts dry. A large pre-punched opening for the anchor bolt allows some "play" for aligning the post. Recommended for extending the life of posts in decks, carports and other exposed structures (DP = Display Carton). |               |                         |         |         |                        |              |            |

| <b>SKEWED 45 DG. HANGER – SKH SERIES: Developed to provide a 45 degree skew hanger for the most common standard lumber, engineered lumber or plated truss applications. These hangers will bend to accommodate a 40 dg. To 50 dg. Skew range. Slant nailing is made easy with oversized hole diameters on inside flanges. Most sizes do not require miter cuts for installation. All listed sizes come in both left and right configurations.</b> |           |                     |              |         |                        |              |            |

| <b>TOP-MOUNT I-JOIST HANGERS:</b> For use with wood I-Joists. Specially engineered for I-joist-to-header applications. The THO offers full lateral support of the I-joist top chord which eliminates the need for web stiffeners in most applications. The overhang style reduces nailing. Raised dimples help assure correct 45 degree nailing into the I-joist bottom chord.                                                                                                                  |            |                            |        |         |                        |              |            |

| <b>ADJ DECK TENSION TIE KIT:</b> Adjustable design accommodates multiple deck joist depths. USP WS8-HDG or 3/8-in HDG lag screws may be installed adjacent to or up to 4-3/8-in below deck joist. 2-hole break-out washer (BO-W) will work with either USP WS8-HDG screws or 3/8" HDG lag screws. Adjustability minimizes the need for additional blocking.                                                                                                                                     |            |                            |        |         |                        |              |            |

## I-JOISTS

ADI 40 = 2-1/2" MSR Solid Flange I-joists.

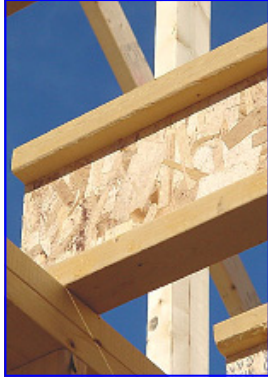

High strength APA ADI 40 performance rated joist.

Lightweight, cost-efficient and easy to work with.

Designed to penetrate ordinary dimension lumber floor joist systems.

Limited Lifetime Warranty.

Excellent dimensional stability with broader gluing and nailing surfaces.

### 3-PLY GLU-LAMINATED COLUMNS by Timber Technologies

Features: Standard 6' minimum treated. #1 SYP treated lowers and MSR 1650Fb SPF uppers. Will not twist, warp, or crook, resulting in better structures with no callbacks. 50-year warranty against decay and insect damage. Engineered with multiple plies of 2 x 6 and 2 x 8 in all lengths utilizing structural fingerjoints. Meet or exceed ANSI 190.1 manufacturing tolerances. Permanent "wet use" approved adhesive cured under 120 PSI.

## ROOF LINE LOUVERS VENTILATORS & VENTS

**DURA-FLO ROOF VENT:** Size: 18" x 17" x 4-1/2" Net Free Area (Sq. In.): 50  
The Dura-Flo non-metallic roof vent is made of a specially formulated resin that withstands sunlight, rain, blistering heat and freezing cold. It will not scratch, crush or dent. Features include: a wider, flexible flange for easier installation, a built-in bird & rodent proof screen, an attractive low profile style, and an angled front to efficiently deflect water. CSA approved.

**DURO-FLO ROOF EXHAUST VENT:** Size: 13" x 11" x 3" Throat Opening: 5-3/4" x 5-3/8"  
The Duro-Flo exhaust vent has a low profile style and is made of a flexible non-brittle material that provides an excellent UV performance. Other features include: stair step ribs which funnel water out, even in a driving rain, extended sidewalls that prevent coarse wind penetration, a molded screen that prevents insects and birds from entering, and a chatterless flapper. CSA approved.

**DUROVENT**

## RIDGE VENTS

### LP WEATHER-TITE LOW PROFILE RIDGE VENT

A low profile, weather-proof and pest-proof ridge vent designed to prevent moisture from entering a metal building structure, as well as insects or other airborne material like dust or plant substances. The Three-Step process is the easiest one-person installation operation for metal roof ridge vent ventilation systems.

Features & Benefits: \* Marco closure material: Crosslink polyethylene foam, 2" thick, 2 lb. Density, charcoal grey color for low visibility. \* Cobra Ridge Vent Materials: A single-vent material. It is a strong, durable, modified polyester, non-woven, non-wicking, fiber-based matting of three layer, non-fabric-covered ridge dimensional construction. \* Peel & Stick strips with permanent adhesive. \* Screw bed for permanent installation. \* Special cut contours keep out moisture and pests. \* Prevents wind driven rain infiltration. \* 40-year Warranty.

NOTE: Pitch must be greater than 6" between major rib.

### EXTRUDED POLYSTYRENE ATTIC RAFTER VENT:

Break-resistant durability and ease of installation. Year round performance -- in summer, aids in cross ventilation to increase comfort while reducing cooling requirements; in winter, helps prevent damaging ice dams by reducing moisture. One side (perforated) for use in both new and retrofit construction. Totally resists moisture; will not rot or deteriorate. Meets all model building codes.

# BADGER CABINETS BUILDER SERIES

## WOOD SPECIES AND FINISHES

### WOOD SPECIES

**STAIN GRADE MAPLE** Stain Grade maple is smooth, even grained wood that may contain: narrow staves, sapwood, heartwood, and all other natural characteristics commonly found within this species.

**PAINT GRADE MAPLE** Paint Grade Maple is a smooth, even grained wood that may contain: narrow staves, sapwood, heartwood, and all other natural characteristics commonly found within this species. This grade is specifically intended for a painted finish. Skins and panels may be made from engineered wood products.

### FINISHES

#### STAINS

Cabinets receive a coat of non wiping stain, one coat of self sealing conversion varnish and a top coat of conversion varnish.

#### PAINTS - 8% UPCHARGE

On wood products, movement is typical due to changes in the climate conditions. This will cause the hairline cracks at the stiles, rails and joints that you will see in a painted finish. Panel shrinkage may also occur in the door panel of your cabinetry. Over time there may be a slight color change in this finish due to exposure to natural and artificial light. The color black also brings out the natural flaws in the wood that is hidden by other colors. These items listed above are natural occurrences in the wood and will not be considered a defect or reason for replacement by Koch Cabinets.

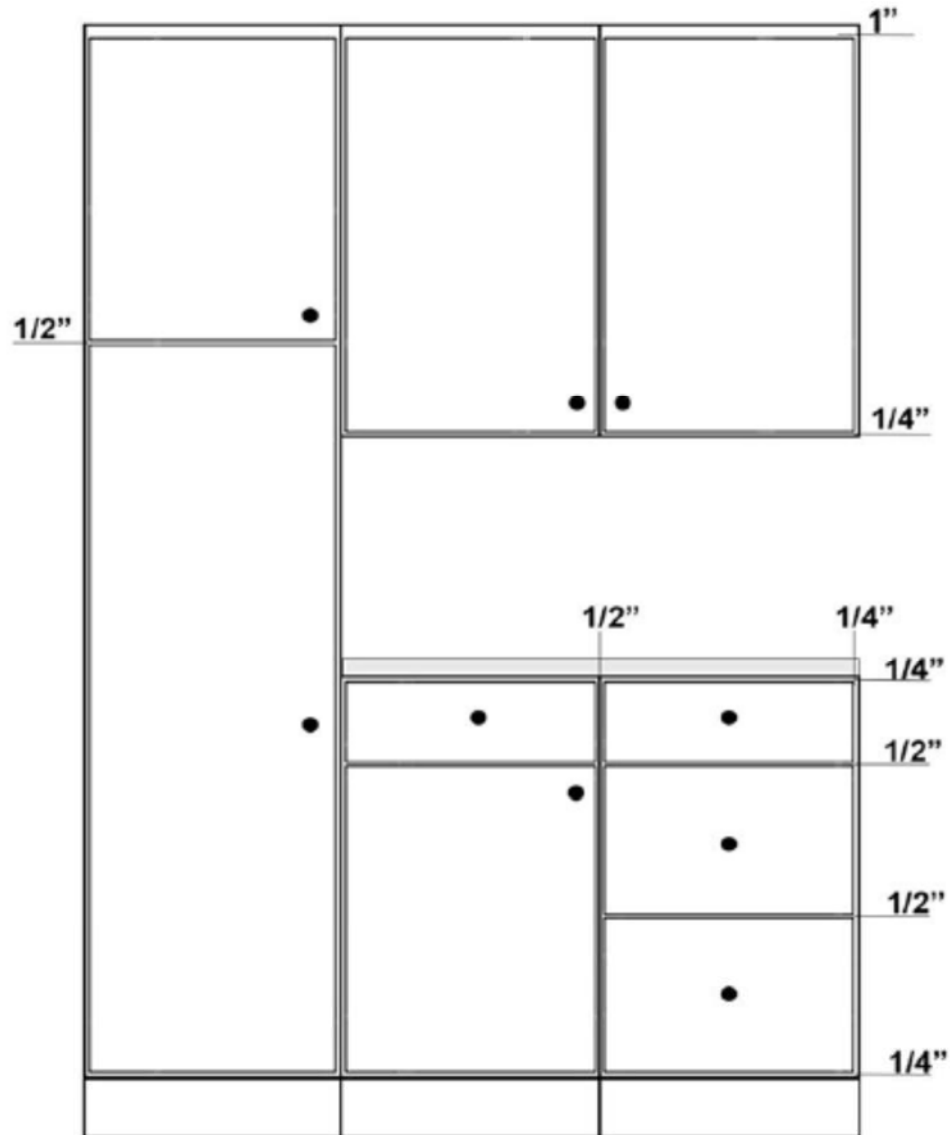

#### FINISHING PROCESS

1. Doors and drawer fronts are sanded through a wide belt sander followed by an orbital sander.
2. They are hand sanded and inspected.
3. Stain is applied to both sides.
4. Doors and fronts have a coat of self sealing conversion varnish applied and are oven cured one side at a time.
5. They are hand seal sanded and brushed clean of sealer dust.
6. They have a top coat of conversion varnish applied and are oven cured one side at a time.
