

See the T.R.U.E. beauty of EverGrain®

*EverGrain*  
Composite Decking

TAMKO

DECKING AND RAILING PRODUCTS

The beauty of a composite deck isn't measured by a single deck board.

T.R.U.E. beauty comes from seeing the entire deck. That's EverGrain®.

The colors. The grains. The patterns. All working together to produce a harmonious look.

See the distinctly T.R.U.E. look of EverGrain for yourself.

EverGrain® Envision® Shaded Auburn

Before making your purchase, view several full-length boards. Representation of these colors is as accurate as modern technology will permit. As with any composite product, color variations will occur. View several full-length pieces of material prior to final color selection and installation. Colors will usually weather to a lighter shade within the first several months of exposure to the environment. Color selection may vary across profiles.

**T. is for True.**

The unique color variations of each EverGrain® Envision® deck board work together to produce a harmonious look with natural depth and dimension. Whether it's the classic colors of EverGrain® or the distinctive tones of EverGrain Envision, the result is a deck that portrays the look of real wood.

**R. is for Random.**

EverGrain's random grain patterns never repeat across a single deck board. The leading competitor's pattern repeats every 37-3/8 inches. That's up to 5 times on each 16 ft. board.

**U. is for Unique Deep Grains.**

Character comes from within. With EverGrain, that means putting grains deep down into the board. The leading competitor's boards are extruded and feature an embossed pattern on the board surface. Not EverGrain. Our deep grains produce a natural, wood-like appearance.

**E. is for Exclusive.**

EverGrain's exclusive compression molding creates composite deck boards through tremendous heat and pressure. The compressive force applied helps squeeze out air pockets, creating a dense board with outstanding strength. It also allows for the use of additional deep grain patterns that do not repeat on individual boards, resulting in a more random and natural wood look.

**Experience Decking Differently.**

The One True Option for that One T.R.U.E. Wood Look

Envision a whole new level of beauty.

Shaded Auburn with Rustic Walnut Accents  
Marquee Railing® Dark Walnut with Weathered Copper Accents

Available Colors<sup>1</sup>

1 Before making your purchase, view several full-length boards. Representation of these colors is as accurate as modern technology will permit. As with any composite product, color variations will occur. View several full-length pieces of material prior to final color selection and installation. Colors will usually weather to a lighter shade within the first several months of exposure to the environment. Color selection may vary across profiles.

2 Decking and railing products begin to age as soon as they are exposed to nature. Buildings experience aging factors differently, so it is difficult to predict how long a decking or railing product will last. That's why TAMKO provides a Limited Warranty. To obtain a copy of the Limited Warranty, the most current version of this brochure, the product installation instructions and care and cleaning instructions, visit [tamko.com](http://tamko.com) or call 1-800-641-4691.

Offering a harmonious look with natural depth and dimension across the entire deck, EverGrain® Envision® features an outer layer that's bonded to the core board in the compression process for low maintenance<sup>2</sup>. EverGrain Envision comes with a 20-year Limited Warranty, which provides a remedy in the event of rotting, splintering, splitting or termite damage. The 20-year Limited Warranty includes a 5-year Full Start Period, as well as a 20-year Stain Resistance Limited Warranty<sup>2</sup>. See the Limited Warranty for complete details.

The outer layer of EverGrain Envision is specially formulated to create the T.R.U.E. look of real wood. Four natural-looking, multi-shaded color options, designed with color highlights that emulate the deep grain textures and authentic color variations of real wood, further enhance the natural beauty.

Compression molded and bonded for the toughest EverGrain deck board yet.

Available in grooved and square edge boards

*EverGrain is compression molded for the T.R.U.E. look of real wood.*

Redwood

Nothing enhances the enjoyment of outdoor living quite like EverGrain® Composite Decking. It's made with an exclusive compression molding process that creates the T.R.U.E. look of real wood with natural colors, random patterns and deep grains. EverGrain decking requires no staining or painting<sup>3</sup> and is available in five beautiful colors<sup>1</sup> to perfectly complement any home. It comes with a 20-year Limited Warranty, including a 5-year Full Start Period<sup>3</sup>. EverGrain decking. Seeing is Believing®.

you thought of all the details.*

The Marquee Railing® System from TAMKO® is code-approved, as described in ATI Evaluation Service Code Compliance Research Report CCRR-0194, and incorporates the finer details that create an appearance of remarkable distinction. Made with a unique coextruded formulation, the Marquee system creates a low-sheen appearance for more wood-like beauty. Distinctive post caps, rings and brackets, designed with a hammered-metal look, complement the natural beauty and convey a truly handcrafted effect.

Post Caps and Rings

Tam-Rail is reinforced with three composite layers, not metal inserts.

No metal inserts in the 6' and 8' sections

Post Cap Colors<sup>2</sup>

Tam-Rail® is a patented triple-layer railing system that is code-approved, as described in ATI Evaluation Service Code Compliance Research Report CCRR-0118, and adds striking beauty to decks, porches and stairs—with no metal inserts in the 6- and 8-foot sections. The system is used both for residential and multifamily applications, and two different post-mount options are available to accommodate either wood or concrete installations. Convenient kit packaging helps facilitate quick and easy installation. The Tam-Rail system comes with a 25-year Limited Warranty, including a 5-year Full Start Period<sup>1</sup>.

*Available in Square  
or Colonial balusters*
