## STANDARD TERMS: 3/4% 10 Days, Net 30

## Prices and specifications are subject to change without notice.

## CREDIT POLICY

STANDARD TERMS

A 3/4% discount will be allowed on invoices paid within 10 days of the invoice date. ACH is an accepted form of payment. Accounts with past due balances will be subject to a monthly service charge of 2% per month (24% per annum).

The net minimum service charge is \$10.00. No additional credit will be extended when an account has reached its credit limit or the account shows items which are 30 days beyond invoice date, whichever comes first. An NSF check will immediately put a customer on a cash basis. A \$50.00 net service fee will be charged for any NSF check.

## MILLWORK NEXT DAY DELIVERY CUT OFF TIME

Badger Corrugating has a 3:30 cut off for all next day deliveries. If you have emergency next day needs after the 3:30 cut off time please discuss with a Badger associate and every attempt will be made to meet your needs. This cut off time is to insure we have room for all product on designated routes.

## **FREIGHT POLICY**

There are no Delivery or Stop Charges on regular route deliveries, delivered to your yard. A Flat Rate Charge of **\$15.00** per package will apply on all orders shipped via UPS/Speedy out of Badger Warehouse.

## **ROUTE TRUCK, JOBSITE DELIVERY CHARGE**

Residential and Commercial Jobsite Delivery Charge in our Delivery Area is **\$200.00**. Jobsite Delivery Charge out of our Delivery Area is **\$200.00 plus Mileage (\$1.75 per mile, out of route area, round trip)**. Jobsite Delivery Charge on a non-route day, is **\$200.00 plus Mileage (\$1.75 per mile, round trip)**. Delay at Jobsite Charge (over 1/2 hour) is **\$75.00 per hour**.

## **ROUTE TRUCK with PIGGY BACK FORKLIFT, JOBSITE DELIVERY CHARGE**

(Add \$105.00 (to the prices below) for Commercial Job Site Delivery.)

Jobsite Delivery Charge on a normal route day is **\$250.00 plus \$95.00 Jobsite Fee.** Jobsite Delivery Charge on a non-route day is \$250.00 plus Mileage (\$1.75 per mile, round trip). Delay at Jobsite Charge (over 1/2 hour) is \$75.00 per hour.

## **Return Information** Minimum Return Amount: \$25.00

#### **RETURN POLICY**

All returns are subject to inspection. Returned goods will not be accepted after 180 days of the original invoice date, or if the product has been "Badger Discontinued" or "Factory Discontinued". All items must be returned in their original carton, and be in good salable condition.

#### **Special Order Products are Returnable Under the Following Conditions:**

1. Pre-approval of the return to our vendor must be obtained prior to material being brought into Badger's warehouse.

2. Return must be within 30 days of the original invoice date.

- 3. A 15% restock fee will be assessed from Badger along with any Vendor restock fees and, if applicable, return freight charges.
- 4. Items must be in their original cartons/packaging and be in good salable condition.

#### \*\*\* We reserve the right to refuse the return on any item that is not a regular stock item with us.

#### **Steel Panels:**

Steel Panels are not returnable, stock or SPO.

#### **Non-Millwork Items:**

If the item is in stock at Badger, there is no restock charge as long as the item is in good,

salable condition, original package and not excluded above or below. Please note the minimum return amount above.

#### LVL and I-Joists:

14" & 16" LVL are not returnable. Cut pieces of 9-1/4", 9-1/2", 11-1/4" & 11-7/8" under 17' are non-returnable, over 17' will carry a 25% restocking charge. 9-1/4", 9-1/2", 11-1/4" & 11-7/8", stock length I-joists are returnable with a 25% restocking charge.

\*Please note: Badger Drivers do not carry copies of RMA's and they may refuse to pick up material that is not properly wrapped. Please notify the driver when a delivery is made that you have material ready to be returned. A copy of the RMA must accompany the material being returned. Do not send material back to Badger via Common Carrier.

## LOW RIB – COMMERCIAL – RESIDENTIAL – STANDING SEAM Trims, Fasteners and Ag. Bldg. Accessories are available for all products. *See Our On-Line Catalog for Pricing.*

Badger is now stocking <u>PANEL-LOC PLUS™</u> in 14', 16' & 22' lengths in a limited number of colors. We also stock a number of the most popular trims and colors. (See the following pages.)

**<u>PANEL-LOCTM</u>** is a low rib (5/8") panel that is best used for post frame barns and buildings, as well as residential roofing. PANEL-LOC<sup>TM</sup> is available in 26 and 29 gauge steel.

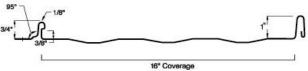

**PANEL-LOC PLUS<sup>TM</sup>** is a low rib (3/4") panel which provides durable performance with an added striation on top of the rib that gives it even more strength. PANEL-LOC PLUS<sup>TM</sup> gives agricultural and light commercial projects, as well as residential roofs, the protection of steel with an attractive appearance.

3/4" \_\_\_\_\_\_ 36" \_\_\_\_\_\_ |-\_\_\_\_9" \_\_\_\_ |

**HORIZON-LOC<sup>TM</sup>** is a durable concealed fastener roof system with easy snap together installation. This architectural panel system uses minimal visible fasteners, giving your building a clean, attractive finish. The panel's easy snap-on ribs attach rapidly with no hand seaming, so installation is less expensive than traditional standing seam.

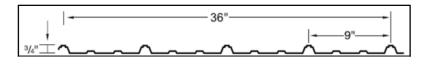

## Request for Literature? See Central States Mfg. website or call the Badger Office.

www.centralstatesmfg.com

**Panel-Loc Plus<sup>™</sup>** provides the same durable performance as our Panel-Loc panel, plus an added striation on top of the rib that gives it even more strength. Available in 26- and 29-gauge metal panels, Panel-Loc Plus<sup>™</sup> gives agricultural and light commercial projects, as well as residential roofs, the protection of steel with an attractive appearance. The Panel-Loc Plus<sup>™</sup> profile from Central States Mfg. has become the standard for excellence in the industry.

## PVC Interlocking Liner Panel

## **TRUSSCORE PVC Interlocking Liner Panels**

TRUSSCORE PVC Interlocking Liner Panels are designed to exceed your most demanding expectations. They meet and/or exceed modern hygienic construction and statutory building codes; and are transforming construction practices in Canada, the United States, and beyond.

Key Advantages to TRUSSCORE PVC Interlocking Liner Panels include:

\*Bright clean appearance \*Virtually maintenance free - Just wipe it clean

\*Class A fire rating, non-flammable \*Comes in standard and custom lengths

\*Corrosion-resistant \*Economical, excellent investment

\*Hidden fasteners \*High strength to weight ratio

\*Highly resistant to moisture and most chemicals

\*Ideal replacement for conventional wall systems

\*Inner truss design for rigidity and strength \*Lightweight, fast easy installation

\*Potential insurance savings \*Supports attic insulation loads \*Pre-punched nailing flange

# **Vinyl Windows and Patio Doors**

New Construction & replacement.
\* Fusion welded sash and frame means utmost in strength and durability.
\* Heavy walled construction (0.070 wall thickness).
\* 3/4" insulating glass with Super Spacer ® warm edge spacer system.
\* Soft coat LoE<sup>2</sup> glass with argon option.
\* Energy Star approved and exceeds NFRC standards.
\* Limited lifetime warranty on all componets: non-prorated and transferable.
\* White and Sandstone solid color and limitless exterior paint colors.
\* Multiple grille and glass options.

\* Woodgrain interiors available.

Lindsay Windows has been manufacturing quality windows since 1947 and has a track record of satisfied customers due to their experience and technology.

www.lindsaywindows.com

## **QUAKER WINDOWS & PATIO DOORS**

Quaker is one of the most diversified window companies in the United States, manufacturing vinyl, clad wood and aluminum windows for all building types for over 60 years. Their state-of-the-art factories manufacture windows and patio doors for everything from cabins to high-rises and provide affordable quality and energy efficiency all along the way.

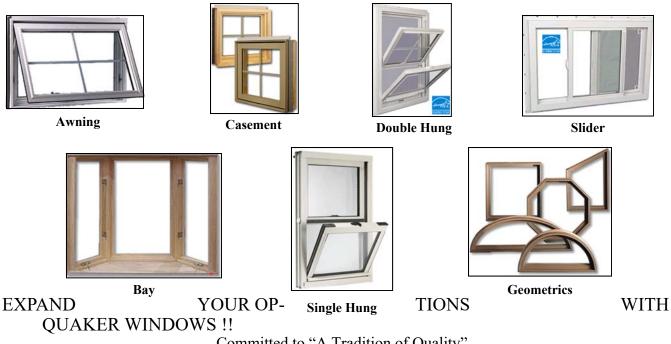

VINYL WINDOWS & DOORS: Manchester new construction and AdvantEdge replacement vinyl windows, along with Vinyl Glide sliding patio doors are available in white, sandstone & beige solid colors, which are also paintable in 9 colors. Energy Star compliant glazing is available in all vinyl products.

<u>CLADWOOD WINDOWS & PATIO DOORS</u>: Brighton series windows and Quaker's patio door series offer the warmth of a wood interior with extruded aluminum exteriors for long lasting beauty. ClassicFit replacement DH's offer the same advantages for remodeling. All are available in 11 exterior colors and with numerous glazing options.
 <u>ALUMINUM WINDOWS & DOORS</u>: Quaker's thermal break aluminum series are designed for new construction and replacements in everything from residential to commercial applications. They can be very simple or meet the most demanding architectural designs, plus have options for conforming to the most stringent historical specifications. Specialty glass types, painted and anodized finishes, plus employees familiar with commercial projects mean Quaker can supply all your commercial needs. Quaker also brings commercial work within the scope of everyday carpenters with simple installation aides and snap-on trim pieces for even the most complicated projects.

Committed to "A Tradition of Quality"

www.quakerwindows.com

#### <u>COMBINATION STORM WINDOWS</u> All available in mill finish plus nine standard paint colors.

#### KENNY SERIES - TRIPLE TRACK

HEADER Wrap around glazing resists breakage adding superior durability for this product.

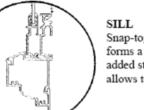

MEETING RAIL Metal interlock at meeting rail between glass inserts, seals out draft, water seepage and eliminates wind rattle. Screen meeting rail eliminates wind rattle and keeps out insects.

#### PERFECTION SERIES - TWO TRACK

HEADER (Ext. Flange)

Top insert has extension flange fitting into upper channel to help Eliminate draft and wind rattle. Drop-in glaze with a mastic compound backing.

MEETING RAIL (U-Channel) Metal interlock at meeting rail between glass inserts, seals out draft, water seepage and eliminates wind rattle. Screen meeting rail eliminates wind rattle and keeps out insects.

SILL Snap-together frame construction forms a hollow support area for added strength. Triple track system ' allows top or bottom ventilation.

SILL (Perfection) Double track frame, lift rails with slide bolts, provides screen and glass panels to operate and remove more freely.

The Kenny and Perfection Series are available in all nine standard paint finishes, plus mill.

#### HORIZONTAL SLIDER VINYL WINDOWS:

New construction windows with integral nail fins (1-1/4" nail fin set back), external j-channel, clear insulated glass and inside half screen.

#### **C.H.I. STEEL GARAGE DOORS**

#### Model #2250 Non-Insulated / #2251 Insulated Raised Panel Door

Built for both longevity and value, the 2250/2251 recreates the elegant look of wood with a deeply-embossed, distinctive panel design.

#### **FEATURES:**

- Door sections are formed from heavy, 25-gauge galvanized draw quality steel.
- Section joints are roll-formed into a tongue and groove which produces a superior weather seal.
- Full height steel hardware attachment plates and white end caps.
- Nylon rollers assure smooth, consistent, efficient and quiet operation.
- Inside stiles are made of galvanized steel and stile holes are "dimpled" for increased holding power.
- Hinges are stamped from galvanized steel in a "wide body" pattern for greater stability and longer life.
- Paint system includes .25 mil primer with rust inhibitor plus .75 mil coating of baked-on polyester paint.
- No lock standard.
- Model 2251 includes insulation, with a white vinyl back cover, R-Value = 7.94.
- S3 spring winding system.
- 12" headroom required on all doors, plus an additional 3" for operator.
- All stock doors include one strut for operator prep.
- 16 x 8 & 18 x 7 have 3 total struts. 18 x 8 has 5 total struts.
- Packaging: 2 or 3 cartons of panels, 1 carton hardware, strut(s), torsion bar w/spring, track bundle.

Tongue & Groove Joints for rigidity and a tighter seal

Bronze, Bahama Brown, Terratone, Green, Almond, Eggshell, Wineberry & Beige.

\*Note: Rough opening should be 3" wider and 1-1/2" higher than desired finished opening.

<u>Available in four models</u>: 944 doors are best suited for self storage, residential and some light-commercial applications. 955 doors, available in larger sizes, are designed for higher cycle use and best suited for light commercial applications. 944WL and 955WL models are windlock door options designed for maximum wind load resistance.

#### Available in 11 standard, prefinished colors: Garnet, Desert Tan, Cedar Red, Roy-

al Blue, Polar blue, Evergreen,

Iced White, Continental Brown, Sunset Orange, Shale & Bright White.

**Strong, Durable Materials:** Solid 26-gauge, Grade 80 rigid-rib steel curtain is durable, attractive, and requires little maintenance. Drums, designed to support panel length, assure proper support and smooth operation.

**Easy to Install:** Factory pre-assembled door nest is easy and economical to install. Roll-up design offers easier installation. Factory-punched holes in brackets and guides allow for quick installation.

<u>Smooth, Quiet Operation</u>: Sturdy zinc-coated steel guides with polypropylene runners allow doors to operate easily. Low maintenance bearings, standard on all Trac-Rite doors, assure smooth operation.

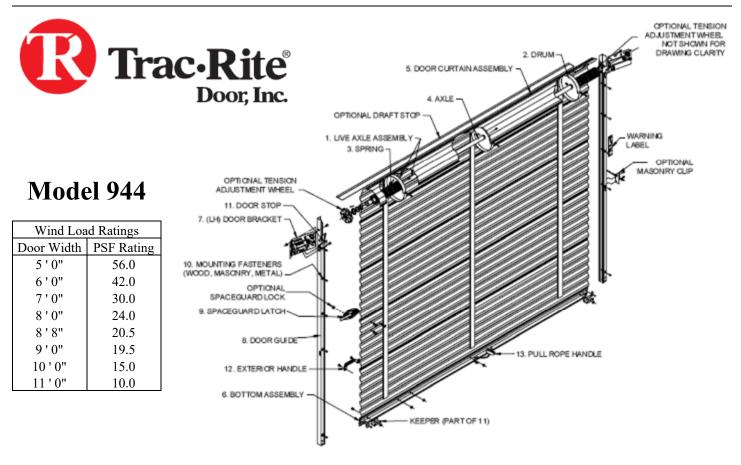

<u>Minimal Back Room Required:</u> Roll-up design allows for minimal back room and reduc ed head room requirements which is beneficial when working with high eave structures.

**Rust Resistant:** Aluminum bottom assembly, stainless steel bolts, and Thermal Plastic Elastomer (TPE) astragal provides corrosion resistance.

**<u>Full Line of Accessories:</u>** Motor operators, chain hoists, insulation. Top and side seals are also available to provide weather resistance perimeter seal.

#### HERITAGE® SHINGLES: Algae Resistant

HERITAGE® shingles feature a double-layer fiberglass mat construction with a random-cut sawtooth design. The two layers of mat are coated with asphalt and then laminated together and surfaced with mineral granules. A self-sealing strip of asphalt helps provide wind resistance. Shadowtone granule blend adds extra richness and depth. Random-cut sawtooth design prevents unsightly zipper patterns. Extra-thick weather-resistant construction provides years of protection.

30 year limited warranty. U.L. Class A fire rated and U.L. wind related.

Classic Heritage® colors are time-honored favorites that create a traditional look.

Heritage® America's Natural Colors® add a contemporary flair with dramatic and vibrant hues.

**Heritage**<sup>®</sup> **Woodgate**<sup>TM</sup> are designed with a wider cut that conveys a rugged yet refined wood-shake look. Unique color blend complements the expansive look and allows for more dramatic color distribution across the shingle. Enhanced shadow line further intensifies the rustic shake-like beauty.

For use as a self-adhering underlayment prior to installation of the final roof system and as a secondary layer used in areas susceptible to wind blown rain and ice damming. Moisture Guard is used on roof decks, along rake and eave edges, valleys and ridges, and around chimneys, dormers, vents and skylights. Moisture Guard is used under most types of roofing, including tile, wood shake, asphalt, slate or composite shingles. It is not recommended for use under metal roofing.

ROOFING UNDERLAYMENTS Priced Per Roll					

#### TAMKO® TW Underlayment

Is a flexible, self-adhering rubberized asphalt sheet membrane with a polymer film on the surface and a removable treated release film on the adhesive side. It is well suited for use as an underlayment where prevention of water penetration is required including under metal roofs\*. TW Underlayment also provides secondary protection against water penetration after installation of the roof system. When fasteners penetrate the TW Underlayment membrane during installation of a metal roof system, the metal roof system manufacturer's recommendations should be followed to assure watertight integrity at the fastener penetrations. \*Before installing TW Underlayment under copper roofing, a design professional must be consulted to analyze the interaction of the building, roof deck, and roof assembly with regards to adequate temperature resistance.

#### **ROOF INSULATIONS**

#### HIGH DENSITY FIBERBOARD

Recommended for use under EPDM adhered systems, mechanically fastened systems & under loose-laid and ballasted single-ply systems, and under Built-Up Roofing Systems as a separation board between an old & new roof. Meets Fed. Spec. LLL-1-535 B Class E. ASTM C 208 (Sheathing).

Prod #	Size	Shts/Unit	Any Qty
C0583	1/2" 4 x 8 Bildrite	95	\$14.79

Contact your Badger salesperson for Nail Board and Vented Nail Board. Products are also available from Hunter Panels and Atlas.

#### FOAMULAR® 250 Rigid Foam Insulation:

For exterior walls contains hundreds of millions of densely packed air cells to provide exceptional thermal performance. It's also virtually impervious to moisture, preventing loss of R-value due to moisture penetration.

FOAMULAR® weighs considerably less than plywood, OSB or other non-insulation material so it's easier, faster and safer to install. Plus, the product's built-in rigidity

means it can be scored and snapped, cut,or sawed with common tools.

Sagging and settling are never a problem.

Moisture Resistance: 0.1% water absorption by volume for long-lasting performance. Compressive Strength: Maintains top function and integrity.

Versatility: Engineered for a variety of sidewall, below-grade and roofing applications.

Thermal Performance: Made from high-density, closed-cell extruded polystyrene foam.

Easy Installation: Saves time and money since it is fast and efficient to install.

#### J.L. INDUSTRIES ROOF HATCHES

Single leaf hatches. Galvanized steel, primed painted, second dimension is hinged side. BRHG series roof hatches provide convenient, weather-tight access to the roof of a building and may be opened to meet the occasional need for auxiliary ventilation. Babcock Davis hatch covers use specially designed hinges to open to a full 900, while a sturdy hold open arm allows the hatch to remain open.

SPECIFICATIONS: U Value: 0.173 to .093; Insulation: 1" or 2" styrofoam; Cover Curb: 14 gauge; Cover Liner: 22 gauge; Corrosion Protection: mill applied electrostatic zinc coating; Counter Flashing: 14 gauge; Painted Surface: corrosion resistant prime painted.

#### **CALL BADGER FOR SIZES AND TYPES OF ROOF HATCHES !!**

#### TITEBOND® WEATHERMASTER™ METAL ROOF SEALANT:

Is specifically formulated to outperform all other sealant technologies, including silicones, tri-polymers, and polyurethanes This superior polymer formula provides a waterproof seal against water, wind, dust and dirt. It offers exceptional adhesion to Kynar<sup>TM</sup> coated metal materials, along with standard metal, aluminum, steel, galvanized bonderized surfaces, plastics and glass The product is ideal for use on a wide variety of metal roof, trim, architectural metal siding, aluminum, galvanized steel, galvanized gutters, flashing and downspouts. It also provides unbeatable adhesion to wood, brass and other common building substrates.

# **Residential Roofing Systems**

## ADHERED RESIDENTIAL ROOF APPLICATION

Using WeatherBond products and a few common household tools, the installation of your new membrane roofing system is simple and fast. From reroofing over your existing residential roofing system to new construction, WeatherBond systems are ideal for sunrooms, carports and porches.

Item	Dimensions	Coverage	Qty Needed
Rubber Roofing EPDM Membrane	10' x 50'	500 sq. ft.	
(45-mil and 60-mill thickness)	10' x 100'	1000 sq. ft.	
Rubber Roofing Adhesive	5 gallon pail	300 finished sq. ft. per pail	
Multipurpose Primer	l gallon	3" x 300 linear ft.	
Peel & Stick Seam Tape	3" x 100' roll	100 linear ft.	
Peel & Stick Cover Strip	6" x 100' roll	100 linear ft.	
Peel & Stick Inside/Outside Corners	7" x 9"	1 per inside or outside corner	
Peel & Stick Pipe Tape	1" х б"	l per pipe	
Peel & Stick T-Joint Covers	6" x 6"	As required	
Lap Sealant	11 oz. tube	22 linear ft.	

individual project we make no representations that the list provided will be absolute.

# **INSTALLATION OF INSULATION (OPTIONAL)**

**Roofing that** 

Butt all insulation boards together, staggering the joints. All spaces larger than one-quarter inch (1/4") must be filled to provide a uniform smooth surface.

Screws and deck plates shall be applied at the minimum rate of eight (8) per 4' x 8' sheet of insulation, and five (5) per 4' x 4' sheet, or as required by the insulation manufacturer. When installing insulation around the perimeter, the fastening pattern is one (1) deck plate and one (1) screw every tow (2) square feet or sixteen (16) per 4' x 8' sheet in a diamond in the box pattern, and eight (8) per 4' x 4' sheet.

Extra fasteners should be installed around protrusions such as pipes, chimneys, skylights, and irregularities in the roof deck.

Do not lay more insulation than can be covered with the WeatherBond EPDM membrane by the end of the working day.

Perimeter Fastener Pattern Field Fastener Pattern 47 4 Ο Ο Ο 0 Ο 0 Ο 0 0 Ο 0 8' 8' Ο 0 Ο 0 0 0 0 0 0 For build-0 OO60' in width of

#### POLYCARBONATE SNO-GEMS

Manufactured from UV stabilized polycarbonate, the unique design of these crystal-like guards suspends the field of snow until the snow and ice gradually melt under the sun's rays.

CUT: SNO-GEM snow guard's prismatic design was developed by architectural sheet metal professionals with over 50 years of on-the-roof experience.

CLARITY: SNO-GEM offers a clear prismatic snow guard which retains its crisp, clean good looks. There's no metal to rust or stain. SNO-GEM snow guards are unaffected by climate extremes. COLOR: SNO-GEM snow guards can be matched to all industry standard metal roof colors. SNO-GEM also offers an unlimited amount of custom colors to meet architectural requirements. The color is injected throughout the material.

**CARAT:** The true measure of a gem's worth. At the heart of each SNO-GEM is an engineered, multi-directional, multipurpose drain opening for melting snow and ice to flow freely, plus cables can be easily routed through the opening Manufactured from UV stabilized polycarbonate, the unique design of these crystal-like guards suspends the field of snow until the snow and ice gradually melt under the sun's rays.

## JOHNS MANVILLE BLOWING INSULATION

Johns Manville Climate Pro: Formaldehyde-free, blow-in loose fill fiber glass insulation is a premium alternative to cellulose. It's blown into attics, nonconforming spaces and hard-to-reach areas, like corners, edges and around framing. When it's applied to the recommended thickness and specifications, you can be assured that your home is energy efficient, with minimal heat loss. And unlike Cellulose, it won't settle, decay or provide food for animals or microbes. it's effective for the life of your home.

**HomeGuard Housewrap** offers a complete solution to protecting the building envelope from the weather's elements. HomeGuard Housewrap is a micro-perforated, woven weather resistive barrier. HomeGuard HP Plus is a non-woven, non-perforated, water vapor permeable, air barrier and protects the building envelope from air, wind, rain and moisture. HomeGuard Butyl Flashing and HomeGuard Seam Fape complete the weather barrier system. Backed by a 10 year warranty and available in several different sizes. HomeGuard products are the right choice for your building project

Build your business with

#### HomeGuard Housewrap

HomeGuard Housewrap is a woven, perforated, high-quality polyolefin housewrap. Its micro-perforations allow moisture vapor to pass through yet protects the exterior wall system as a water resistant barrier. As a preventative for air infiltration, HomeGuard housewrap reduces air infiltration, which increases the efficiency of a building's insulation system and saves on heating and cooling costs. HomeGuard housewrap is durable, able to withstand harsh jobsite conditions and it is UV resistant for up to 6 months.

#### HomeGuard HP Plus Housewrap

HomeGuard HP Plus Housewrap is a high permeable, non-woven, non-perforated housewrap. Also available is HomeGuard LP Plus Housewrap, a low permeable solution for warmer climates. Both products meet Air Barrier criteria, are moisture vapor permeable, UV resistant, and translucent. They are versatile in application as a weather barrier system behind exterior claddings including stucco. HomeGuard HP Plus Housewrap has been tested against the toughest ASTM standards and proves to be as good as or better than name brand commercial strength products.

CORNING \* INNOVATIONS FOR LIVING\*

## FOAMULAR® 250 Rigid Foam Insulation:

For exterior walls contains hundreds of millions of densely packed air cells to provide exceptional thermal performance. It's also virtually impervious to moisture, preventing loss of R-value due to moisture penetration.

FOAMULAR® weighs considerably less than plywood, OSB or other non-insulation material so it's easier, faster and safer to install. Plus, the product's built-in rigidity means it can be scored and snapped, cut,or sawed with common tools.

Sagging and settling are never a problem.

Moisture Resistance: 0.1% water absorption by volume for long-lasting performance. Compressive Strength: Maintains top function and integrity.

Versatility: Engineered for a variety of sidewall, below-grade and roofing applications. Thermal Performance: Made from high-density, closed-cell extruded polystyrene foam. Easy Installation: Saves time and money since it is fast and efficient to install.

#### ATLAS EnergyShield® CGF Continuous Wall Insulation

Atlas EnergyShield® CGF (formerly Rboard®) is composed of a closed cell polyisocyanurate (polyiso) foam core, faced with a non-reflective coated glass-mat facer on both sides. The blowing agent used to produce the polyiso foam core does not contain any CFCs, HCFCs or HFCs. EnergyShield® CGF has zero Ozone Depletion Potential (ODP) and negligible Global Warming Potential (GWP). Atlas EnergyShield® CGF combines high R-value, enhanced durability from two coated glass-mat facers, and water resistive attributes in a high performance rigid Wall insulation. EnergyShield® CGF is suitable for a variety of continuous insulation (CI) applications.

Panel sizes are 4' by 8' or 4' by 9'. Panels can be supplied in nominal 16" and 24" widths for use masonry cavity wall applications. Custom sizes are also available.

**APPLICATION:** 

EnergyShield® CGF is recommended for use in residential applications as well as some commercial construction applications, check local building codes for compliance. The coated glass-mat facers enhance the products durability and are more permeable than foil facers.

wall to be in compliance with National Standards. New, more open radius corners (9") with narrower face -width combines the advantages of strength and extends the size range to accommodate most code requirements. It allows greater projection not available in other styles. SPC is the only producer of area walls that has a beaded edge on both the top and bottom of 48" and higher area walls. This increases the strength considerably and eliminates the shaper edges in handling.

## FIRE RATING

This polyethylene is classed as UL "Slow Burning" and is intended for underground use only. Gives off no toxic chlorine gas.

## MATERIAL

Meets ASTM D1248, Polyethylene Materials.

## CHEMICAL RESISTANCE

Tested in accordance with ASTM D543 and is resistant to all common home, lawn, garden, and soil chemicals, pesticides, and fertilizers.

SPEC BLENDED CONSTRUCTION PRODUCTS

**Type I TCC Portland** cement is designed for use in a variety of applications, are manufactured to meet virtually any construction challenge and meets all requirements as outlined in ASTM C150. Portland cement is one of the most widely used basic building materials in the United States because it is durable, dependable, cost-effective, and suitable for a variety of concrete construction applications. Portland is used to construct pavements, sidewalks, reinforced concrete buildings, bridges, railway structures, tanks, reservoirs, culverts, water pipe, and masonry units and provides strength characteristics for conventional ready mix requirements, as well as construction where high strength is needed. #100908.

## www.quickrete.com

## **CONCRETE SEALER AND WATERPROOFING**

Sealcrete penetrates deep into the concrete, forming a permanent waterproofing barrier that becomes an integral component of the cement structure. Sealcrete is a one coat application; easy to use on all forms of masonry, concrete, stucco, brick, cement block, adobe, and limestone. It can be applied with brush, roller, mop or low pressure spray (20-30 PSI). Typical coverage is 150-350 sq. ft. per gallon depending on porosity of the concrete.

## **OTHER FEATURES:**

- --Permanently resists water --Non-toxic --Non-flammable
- --Environmentally safe --Prevents mildew growth
- --Odorless
- --Cleans with water
- --Resists stains --Retards pitting & dusting

--May be painted over, and will accept concrete topping or mastics for floor tile, etc.

--Meets all federal and local standards

## **CONCRETE REINFORCING BARS**

#### **REINFORCING BARS - 20'LENGTH**

An important component of reinforced concrete and reinforced masonry structures.

#### Grading:

Grade 60 has the highest tensile strength, it is the most difficult to bend.

#### Grade 40 is the most bendable

#### Badger offers rebar in the following grades and sizes:

## FAIRWAY VINYL RAILING

#### Features and benefits of Fairway Vinyl Systems

Fairway Railing is a boxed system. Everything arrives neat and clean in color-coded boxes. Both composite and vinyl railings. Four railing styles to choose from. Two top rail offerings (standard & contour). Aluminum reinforcement in both the top and bottom rails. Two baluster offerings (square & turned). Full line of accessories. Most accessories for Fairway Boxed System work with Composite System. Bracketed system for fast and easy installation (new construction & existing structures). Brackets are 2-piece, tight fitting and no visible screws. Transferable Lifetime Warranty. BOCA Approved.

#### FANFOLD UNDERLAYMENT BOARD

#### SIDING UNDERLAYMENT

GreenGuard® Q-Series products consist of rigid, extruded polystyrene foam with tough polystyrene capsheets that are designed to withstand the rigors of jobsite handling. These products provide a smooth, level surface for new siding. The products are perforated to allow potentially harmful moisture vapor to escape so that it does not become trapped in the wall systems.

#### PREFINISHED SIDING/NU-ALUM PANELS

#### NU-ALUM PANELS:

Embossed aluminum laminated to waferboard or plywood. For exterior walls and decorative construction application. Nu Alum panels are a low maintenance, structural panel, combining plywood or waferboard with aluminum in a durable, attractive external wall panel.

COLORS: Bronze or White

## MORTARLESS BRICK SIDING

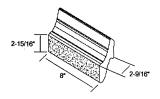

<u>Novabrik</u> is a mortarless, interlocking brick siding. It stacks and locks to form a weather tight, maintenance free, brick exterior. By combining the traditional good looks of brick with many design features, Novabrik gives you the warmth, security and value of a brick home.

Developed for new construction as well as for retrofit projects, Novabrik can be used for industrial, commercial and residential buildings. Novabrik can be installed on various types of structures: wood frame construction, steel studs, concrete or concrete block walls, prefabricated steel buildings and ICF systems.

**Benefits:** Resists seasonal freeze/thaw cycles. Made of very durable, fire resistant stone, Increases the strength

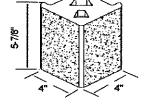

of the structural framework of traditional homes by 35%. Resists water penetration. High soundproofing for improved comfort. Increases the resale value of your property. Quality finish requires no maintenance, makes any home more beautiful and durable.

<u>Nine Colors:</u> Aspen Gray, Harvest Blend, Marble White, Charcoal, Colonial Red, Desert Sand, Smokey Mountain, Arlington Blend, and Walnut

24" Sill Stones

'Stack-n-Tack' stone siding is an easy to install, mortar less, stone siding that can be nailed or screwed on to any surface. This stone siding can be used for residential as well as commercial jobs. We have made the process so easy even the home improvement novice can add value to their home or commercial building by adding 'Stack-n-Tack' stone siding. 'Stack-n-Tack' stone siding is not only the easiest stone on the market to install, it is a durable maintenance free alternative to real stone. By eliminating the mortar process involved in traditional cultured stone applications we have dramatically cut down on the cost, labor and expertise needed to install our stone. Simply line it up, nail it on and you too can install 'Stack-n-Tack' stone siding.

To ensure our customers the best in quality stone, we have put our 'Stack-n-Tack'

stone siding through extensive testing and here are our results.

<u>**Technical Specifications:**</u> Compressive Strength: 3000 psi : Splitting Strength: 790 psi : Absorption: 13.3% increase in weight of stone if submerged in water : Thermal Resistance: R = .60 : Durability: numerous installations of similar products in Alaska, Canada and Northern United States are successful tests in themselves of the durability and freeze/thaw resistance of 'Stack-n-Tack' stone siding : Color Retention: only permanent mineral oxide colors are used. No detectable color change can be observed even after years of weathering

'Stack-n-Tack' Panel 1-Panel covers 1 Sq.Ft.

#### FASTENERS AND STAPLES

#### HAMMER STAPLERS

Hammer Staplers are precision-made tools that you swing like a hammer. They are convenient to use at arm's length, overhead, or at floor level. The back-end loading, high-capacity magazine lets you reload quickly and easily. A quick opening Jiffy Jaw system permits fast cleaning and easy jam clearing. Made of heavy-duty steel construction. Its unified trip-lever cam linkage design means fast, smooth driving action. The tool is light weight and balance-engineered for fast, easy, one-handed operation. Load Capacity: 2 strips of 84 (168 staples).

#### ANCHOR FASTENING SYSTEMS

#### COIL ROOFING NAILER

The NV45AB2 Coil Nailer has combined the speed and accuracy of pneumatic power shingling, by reducing the time spent fastening shingles (most times by one-half), profits rise dramatically. The carbide tipped NV45AB shoots 120 nails in one load. The standard flush drive attachment enables you to set the nail depth to your requirements. (Use G1651-G1653 Nails)

header appl need for wel	TOP-MOUNT I-JOIST HANGERS: For use with wood I-Joists. Specially engineered for I-joist-to- header applications. The THO offers full lateral support of the I-joist top chord which eliminates the need for web stiffeners in most applications. The overhang style reduces nailing. Raised dimples help assure correct 45 degree nailing into the I-joist bottom chord.

#### **I-JOISTS**

ADI  $40 = 2 \cdot 1/2$ " MSR Solid Flange I-joists.

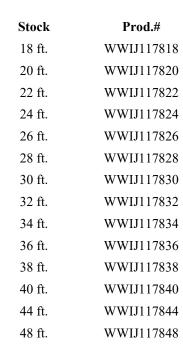

High strength APA ADI 40 performance rated joist.

Lightweight, cost-efficient and easy to work with.

Designed to penetrate ordinary dimension lumber floor joist systems.

Limited Lifetime Warranty.

Excellent dimensional stability with broader gluing and nailing surfaces.

Other Sizes and Specs. Special Order: 9-1/2" --- 11-7/8" --- 14" --- 16"

Also available are other PJI I-Joists which carry even greater spans.

CALL THE BADGER LUMBER OFFICE FOR PRICING.

#### **RIM BOARD**

RIM BOARD PLUS is used where additional nail holding strength is siding or for attaching exterior deck ledger boards. RIM BOARD PLUS is a 1-1/8" thick OSB product. All RIM BOARD PLUS is APA stamped and edge sealed. Full units are wrapped to prevent weather damage. This product has an extremely high vertical design capacity at 5,700 lbs. per lineal foot.

#### DUROVENT

## RIDGE VENTS

#### LP WEATHER-TITE LOW PROFILE RIDGE VENT: (for CD2000)

A low profile, weather-proof and pest-proof ridge vent designed to prevent moisture from entering a metal building structure, as well as insects or other airborne material like dust or plant substances. The Three-Step process is the easiest one-person installation operation for metal roof ridge vent ventilation systems. Features & Benefits: Marco closure material: Crosslink polyethylene foam, 2" thick, 2 lb. Density, charcoal grey color for low visibility. Cobra Ridge Vent Materials: A single-layer, non-fabric-covered ridge vent material. It is a strong, durable, modified polyester, non-woven, non-wicking, fiber-based matting of three dimensional construction. Peel & Stick strips with permanent adhesive. Screw bed for permanent installation. Special cut contours keep out moisture and pests. Prevents wind driven rain infiltration. 40-year Warranty.

**NOTE:** Pitch must be greater than 6" between major rib.

#### EXTRUDED POLYSTYRENE ATTIC RAFTER VENT:

Break-resistant durability and ease of installation. Year round performance -- in summer, aids in cross ventilation to increase comfort while reducing cooling requirements; in winter, helps prevent damaging ice dams by reducing moisture. One side (perforated) for use in both new and retrofit construction. To-tally resists moisture; will not rot or deteriorate. Meets all model building codes.

### CABINET LINES AVAILABLE:

www.diamondcabinets.com www.badgerlax.com/products www.marquiscabinet.com

#### Face Frames:

Face frames are  $\frac{3}{4}''$  thick solid wood with  $\frac{1}{2}''$  stiles and rails. Vertical center mullions, when present, are  $\frac{3''}{1}$ . Intermediate rails are  $\frac{1}{2}''$  in base and vanity cabinets, and  $\frac{1}{2}''$  or 3'' in wall and tall cabinets, depending on cabinet configuration. Face frames are dadoed to receive end panels, tops, bottoms, and fixed shelves. They are reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

#### **Cabinet Box:**

Standard Construction:

Tops, bottoms and end panels are constructed from  $\frac{1}{2}$ " thick industrial grade particleboard with a vinyl interior and exterior. End panels are dadoed into the face frame and set back from the outside edge  $\frac{4}{2}$ ". Backs are  $\frac{1}{4}$ " thick industrial grade medium density fibercore, with maple wood-grain vinyl to match the cabinet interior. Backs are affixed to end panels with machine dado, reinforced with adhesive and staples. Embossed quality vinyl finish allows for easy clean up and reduces the likelihood of stains.

#### **Plywood Construction:**

**Construction Features:** 

Tops, bottoms and end panels are constructed from  $\frac{1}{2}''$  thick plywood with a vinyl interior and exterior. End panels are dadoed into the face frame and set back from the outside edge  $\frac{1}{2}''$ . The exterior of the end panel is intended for concealed installation. Finished ends must be specified. Backs are  $\frac{1}{4}''$  thick plywood, with maple wood-grain vinyl to match the cabinet interior. Backs are affixed to end panels with machine grooving, reinforced with adhesive and staples. Finished interior cabinets will not be plywood, they will be MDF with veneer. Plywood shelves are also available.

#### **Plywood Options**

Plywood Box +9% Plywood Box & Shelves +12%

#### **Cabinetry Interiors:**

Cabinet interior has a natural maple print vinyl. This vinyl creates an attractive wood-grain appearance while providing a durable, non-porous, abrasion resistant surface.

#### **Matching Vinyl End Panels:**

Matching vinyl end panels are available by request for a few of the species and stain combinations in both standard and plywood construction: Oak - Wheat, Oak - Pecan Maple - Natural. All other species and stain combinations will be manufactured with Maple -Natural vinyl end panels except for Oak - Natural which will be constructed with Oak - Wheat vinyl end panels. Finished ends are required on exposed ends for the species and stain combinations not listed above. This can be achieved with applied skins or integrated end panels.

#### <u>Nailers:</u>

Our nailers are made from medium density industrial grade particleboard affixed to the cabinet backs with glue and staples. Wall cabinet nailers are  $\frac{1}{2}$ " x  $2\frac{1}{2}$ " while the nailers on our bases, vanities, and tall cabinets are  $\frac{3}{4}$ " x  $2\frac{1}{2}$ ". Nailers will be plywood on plywood cabinets.

#### **Dovetail Drawers & Roll-Out Shelves:**

Drawer box is <sup>5</sup>/<sub>8</sub>" thick, all wood (sides, back and front) with a clear topcoat and dovetailed corners. Top edges of the drawer box have an eased edge. Captive drawer bottom is <sup>1</sup>/<sub>4</sub>" thick vinyl, dadoed into the drawer box sides, back and front. The drawer slide capacity is 75 pounds.

#### Adjustable Shelves:

Shelves are <sup>3</sup>/<sub>4</sub>" thick, vinyl and edge band will match the cabinet's interior.

#### **Toe Board:**

Cabinet toe space is 4<sup>1</sup>/<sub>2</sub>" high and 3" deep (prior to the <sup>1</sup>/<sub>4</sub>" thick toeboard installation).

Characteristics of Wood Types:

#### Wood Types

Alder	16%
Rustic Alder	21%
Cherry	21%
Hickory	9%
Rustic Hickory	14%
Maple	9%
Oak	-
Rustic Oak	6%

The real beauty of wood comes from the true natural qualities of wood itself. Wood will vary in color from shades of white, red, brown and green to almost black. Grain variations of solid hardwood and veneers will vary slightly from wild to nearly straight in appearance. Solid wood panels naturally expand and contract with normal humidity changes due to interior heating and cooling. These characteristics are what makes wood beautiful, and distinct in color. Countryside does not warrant or under any circumstances consider color, graining or minimal shrinkage a defect in material or workmanship.

Alder is a smooth hardwood with straight grain and an even texture. It's color can range from a light honey to a reddish-brown hue, similar to cherry. Alder will mellow in color (become a shade lighter) as it ages.

**Rustic Alder** has a fine, straight-grain pattern and even texture. The color is a light brown with a reddish tinge that stains evenly. Rustic Alder includes character spots, knots, burls and blemishes which do not affect the product durability. As one of the softest hardwoods, alder can be easily dented or scratched.

**Cherry** is a smooth, even-grained hardwood. It is characterized by its red undertones, but may vary in color from white to a deep, rich brown. Cherry has a fairly uniform texture, revealing pin knots and curly graining. Over time the finish will darken. This is a sought-after quality in cherry cabinetry, and those who select it expect this evolution.

**Hickory** is a strong, heavy hardwood known for it's distinctive and random graining patterns. There is a wide variety in color and streaking, ranging from white to dark brown, that can appear in a single door panel. These exaggerated characteristics are to be expected and are considered desirable in hickory cabinetry.

**Rustic Hickory** is a strong, heavy hardwood known for distinctive graining patterns. Contributing to its dramatic appearance is a wide variety in color and streaking, ranging from white to dark brown. This contrast in color can appear in a single door panel. Hickory also contains random knots and wormholes that further contribute to a varied appearance. These exaggerated characteristics are to be expected and are considered desirable in hickory cabinetry.

**Maple** is a close-grained hardwood that is predominately white to creamy-white in color, with the occasional reddish-brown tones. Maple is characterized by it's smooth, even grain pattern. Mineral streaks and tiny bird pecks are common and will appear darker when stained.

**Oak** is a very strong, open-grained hardwood that ranges in color from white to pink to reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits. Oak is known for it's prominent grain pattern and texture that varies from a tight, straight grain to a distinctive arched pattern.

**Rustic Oak** is a strong, open-grained hardwood that ranges in color from white to pink to reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits. Oak may also contain wormholes and wild, varying grain patterns. This distinct graining is considered a desirable quality. Rustic Oak has many of the same characteristics as oak, but adds more color variations and knotholes.

What to expect when ordering Countryside's Rustic Woods:

- \*Sound Closed Knot (not moveable) Expected in Countryside Rustic Woods up to approximately 3" diameter.
- \*Sound Knot with Cracks Expect sound knots with open cracks up to approximately 1" in length.
- \*Open Knot (Through door) Not to be expected in Countryside Rustic Woods.
- \*Unsound Knot (moveable core) Not to be expected in Countryside Rustic Woods.
- \*Knot Cluster (cluster of tight sound knots) To be expected in Countryside Rustic Woods.
- \*Worm Holes/Pin Holes Can be expected in Countryside Rustic Woods in sizes up to approximately 1/8" wide by 8" long.

Please Note: Rustic characteristics will be on cabinet doors only. Accessories are not available in our rustic species; alder, hickory or oak will be substituted.

#### Stains, Paints & Finishing:

#### Stains:

Countryside stained products and accessories consist of complete water base stains applied on a state of the art flat line finish system. The stains are consistently applied with 2 reciprocating spray guns with fine tip heads. Qualified personnel then hand wipe the wood for an even application of the stain. This will highlight the grain patterns and beauty of the wood.

All of the stains are designed exclusively for Countryside Cabinets. These stains cover a wide spectrum of hues and tones. An in-house stain matching system is available to meet your needs for custom colors in a timely manner.

We finish the product using a force-dry oven system and completely cure the finish using ultra violet technology. This process offers a beautiful long lasting durable finish that is dry to the touch as it comes off of our line.

Stain	UpCharge	<b>Production Period</b>
Cinnamon	-	15 Working Days
Embers	-	15 Working Days
Natural	-	15 Working Days

Stain Match*	+25%	20 Working Days

#### **Paints:**

Countryside painted product and accessories consists of 1 coat of catalyzed primer and a top coat of pigmented conversion varnish to attain the color selected. We use Sherwin Williams as a sup - plier to attain all colors selected. We use medium density fiberboard (MDF) as a center panel material to minimize the cracking on joints which is a common occurrence to the product in the environment. Wood center panels are available upon request.

Paint	UpCharge	<b>Production Period</b>
Chai	24%	20 Working Days

Thyme	24%	20 Working Days
Onyx	24%	20 Working Days
White Ice	24%	20 Working Days
Paint Match*	30%	20 Working Days

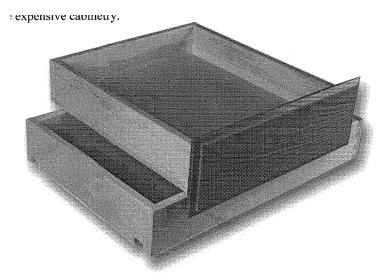

#### Profile Glaze:

Countryside Cabinets offers a Profile Glaze on many select door styles and various accessories. Profile glazing leaves the base color of the finished product unchanged. The Profile Glaze is applied using a high tech air brush system. It accents the details of the profiles to create visual contrast and depth.

UpCharge	<b>Production Period</b>
+12%	+5 Working Days
+12%	+5 Working Days
	+12%

\* Production period begins after match has been approved. There is a minimum invoice amount of \$1500 on all stain and paint match orders

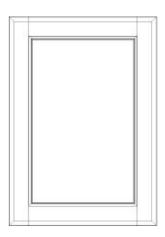

Our 5/8" **wood dovetail drawers** include concealed "undermount" epoxy glides that are self-adjusting and self-closing. This standard enhancement is often associated with more expensive cabinetry.

THIS PAGE LEFT BLANK.

#### SNIPS, SCRATCH AWLS & DUCT STRETCHER

#### AVIATION COMPOUND ACTION SNIPS

More work with less effort.

Prod #	Mfg #	Size	Cut Length	Type of Cut	Per Each
M0358	P6716L - Red Grips	10"	1-5/16"	Left	\$23.21

#### OFFSET CUTTING LEVER SNIPS

For continuous cuts in sheet metal stock, round and square duct, stove pipe, Formica, floor tile, & carpeting. 18 ga capacity in sheet metal. Ideal for flush cuts and for cutting any angle--contour hole or pattern configuration. Compound leverage with roller bearing action assures maximum cutting power at blade tips.

Type of Cuts: Left Angles, Straight Lines and 5" Dia. Right Circles.

Prod #	Mfg #	Size	Type of Cut	Per Each
M0547	P6510-L - Red Grips	10"	Cuts Left	\$32.67

Type of Cuts: Right Angles, Straight Lines and 5" Dia. Left Circles.

Prod #	Mfg #	Size	Type of Cut	Per Each
M0548	P6510-R - Green Grips	10"	Cuts Right	\$32.67

#### ALUMINUM SNIPS (WITH INLAID STEEL BLADES)

\*One-third the weight of steel types and give more years of service. \*Handles will not spring when cutting heavy gauges of sheet metal. \*Heat treated and tempered Inlaid blades. \*Blades can be re-sharpened.

Prod # Mfg #	Size	Type of Cut	Per Each
M0390 M-14N	14"	3-1/2"	\$57.93

#### TURBO SHEAR, Heavy Duty

TurboShear HD cuts 18-gauge galvanized and most other common metal building materials. One -hand operation. Drill clamping devise is standard. Makes angled crosscuts through profiles of building and roofing panels and stone coated metal shingles. Cuts through layered metal seams including spiral duct metal seams down to 20 gauge. Fits most 14.4 volt or larger AC or cordless drills. Cuts straight and to left. Capable of navigating tight curved patterns and square cuts. Blind cuts require a 1-inch starting hole.

Prod #	Mfg #	Galv. Steel	Spiral Duct	Per Each
M0410	TSHD	18 ga.	20ga.	\$176.19

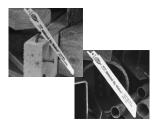

#### VINYL SIDING SNAPLOCK PUNCHES

Snap lock plastic skirting and siding to finishing trim. Punch raises a high projection to compensate for natural relaxation of vinyl plastic.

Prod #	Mfg #	Throat Depth	Length	Per Each
M0454	SL-5	3/8"	9"	\$30.40

#### VINYL SIDING REMOVAL TOOL

SideSwiper model SRT2 combines the comfort and added leverage of an easy-to-grap straight handle with the smooth unlocking motion of a burr free hook. The blade of the SRT2 is angled from the bottom plane of the handle and allows the user to keep the wrist straight while keeping knuckles well above the work. Blade surface finishing and plating assures that the sharply angled hook will not cut into the vinyl material or produce shavings.

Prod #	Mfg #	Per Each
M0452	SRT-2	\$10.40

#### CAULK GUN (CG12)

Flexible, lightweight caulk gun with handy punch wire and ladder size hang hook.
