Since 1903, Badger has been manufacturing custom products to fit many applications, the tradition continues with millwork. Our custom millwork area can help you complete your project all in one stop here at Badger. Not only are we known for quality products and pre-finish, but many of our customers have come to learn and enjoy the ability to customize a project and have quality product delivered ready to install. No more searching for someone to take a piece of wood and make it a masterpiece for the first time. Here at Badger we have over 100 years of woodworking experience in this custom department alone, some were trim carpenters - others were custom cabinet and interior door makers. They have a gift for taking the standard and making it exceptional.

"Do not say I can't find it... Until you checked with Badger"
